a. Title: District Counsel

# SECTION III: RECONVENE TO OPEN SESSION

REPORT OF CLOSED SESSION

# **ADJOURN**

# **NOTICE TO PUBLIC**

Members of the public may address the Board of Directors on a topic not on the agenda but within the jurisdiction of the Board of Directors or on the consent agenda by approaching the Board during consideration of Agenda Item #2 "Oral and Written Communications", under Section I. Presentations will be limited in time in accordance with District Resolution 69-2-1.

When addressing the Board, the individual may, but is not required to, provide his/her name and address in an audible tone for the record.

Members of the public may address the Board of Directors on a topic on the agenda by approaching the Board immediately after presentation of the staff report but before the Board of Directors' deliberation on the topic to be addressed. Presentations will be limited in time in accordance with District Resolution 69-2-1.

The Santa Cruz Metropolitan Transit District does not discriminate on the basis of disability. The Encinal Conference Room is located in an accessible facility. Any person who requires an accommodation or an auxiliary aid or service to participate in the meeting, please contact Cindi Thomas at 831-426-6080 as soon as possible in advance of the Board of Directors

Regular Board Meeting Agenda December 12, 2008 Page 5

meeting. Hearing impaired individuals should call 711 for assistance in contacting METRO regarding special requirements to participate in the Board meeting.

DEC - 3 2008

SANTA GRUZ METROPOLITAN TRANSIT

DISTRICT

Dear Sirs:

I am a regular rider on the Hwy 17 bus from San Jose to Santa Cruz and I pass though the Metro Center in Santa Cruz. I have some concerns that I feel are important to bring to your attention as the Board of Directors. Some of these things are probably violations of the law and fall within your legal responsibility.

One of my concerns is the harassment of people which I have witnessed at the Metro Center by security guards. Just within the last two weeks I witnessed one of the guards angrily yelling at a person to "just keep moving."

I have also learned of the arrest and citation of Robert Norse of Santa Cruz at the Metro Center. That arrest followed Norse's complaint about the broadcast of religious sermons on the loudspeakers at the Metro Center. Norse was cited for 'trespassing' but the citation was clearly in retaliation for his very valid earlier complaint.

The harassment of individuals that I have witnessed and the citation of Robert Norse appear to be in violation of Section 365 of the California Penal Code, which states, in part, "Every person, and every agent or officer of any corporation carrying on business as an innkeeper, or as a common carrier of passengers, who refuses, without just cause or excuse, to receive and entertain any guest, or to receive and carry any passenger, is guilty of a misdemeanor."

Robert Norse was clearly the subject of a false arrest. I have heard the audio recordings that Norse made while at the Metro Center. (Norse played the recordings on "Free Radio Santa Cruz" and the recordings of the broadcasts are available on the <a href="https://www.huffsantacruz.org">www.huffsantacruz.org</a> web site.) The allegation was an obvious fabrication and it is hard to see it as anything other than retaliation for his earlier complaint about the broadcasting of religious sermons at the Metro Center.

In addition to being a false arrest, it was a violation of the previously mentioned Section 365 of the California Penal Code.

It is also noteworthy that Norse was cited under Chapter 9.60 of the Santa Cruz Municipal Code (Trespassing), which does not apply. A separate Chapter of the Municipal Code, Chapter 9.62 (Trespass for Entry Upon Public Transit Facilities) would possibly apply, if indeed Norse were in violation of some rule. The security guard (as well as the Santa Cruz police officer) was clearly unaware of this and unaware of their responsibilities under that chapter. That chapter requires such things as a written notification of a "withdrawal of consent", a staying of the notification pending an appeal, as well as violation of "written rules or regulations." It is your responsibility as the Board of Directors to see that the law is followed in these instances, and the ignorance of your agents is no excuse.

I suspect that a similar false arrest was implied and threatened in the other acts of harassment which I have witnessed by the security guards. I would not be surprised to learn that other false arrests have actually occurred.

Another thing that I would point out is that the requirements of Municipal Code Chapter 9.62 provide you with a significant level of protection against litigation and financial loss if you were to adhere to them. However, at this point, your actions appear to be totally arbitrary and you appear to be at significant risk. If an individual or class were to sue based on sexual or racial or national origin discrimination you would have little protection. Indeed, it should be noted, some of the individuals that I've seen harassed were black or Hispanic. And I would like to point out that Section 5332 of Title 49 of the US Code prohibits such discrimination with possible consequences including "no further financial assistance of the United States Government under this chapter be provided...". And it is my understanding that the Metropolitan Transit District receives about \$2 million annually from the federal government.

A separate issue is the broadcasting of sermons from the Metro Center. I don't know what is going on with that, but it is a very clear and blatant violation of the constitutional separation of church and state which needs to addressed.

I don't know if these things have been done with your knowledge or direction, but they are clearly within your legal responsibility. Indeed, I don't even know whether you are even aware of these actions; however, you are now on notice.

It seems to me that you are subjecting yourselves to possible individual and class action law suits, as well as criminal prosecution, as a consequence of these actions.

In any event, these are action that I find repugnant and unacceptable. I am bringing this situation to your attention with the hope that these problems will be corrected and not allowed to continue.

I am writing anonymously out of fear for possible retaliation while at the Metro Center.

Sincerely,

A. Passenger

cc: Robert Norse

# **AGENDA**

# DECEMBER 17, 2008 - 6:00 PM PACIFIC STATION CONFERENCE ROOM 920 PACIFIC AVENUE, SANTA CRUZ, CALIFORNIA

- 1. ROLL CALL
- 2. AGENDA ADDITIONS/DELETIONS
- 3. ORAL/WRITTEN COMMUNICATION
- 4. CONSIDERATION OF MINUTES OF NOVEMBER 19, 2008
- 5. RIDERSHIP REPORT FOR SEPTEMBER 2008
- 6. PARACRUZ OPERATIONS STATUS REPORT FOR AUGUST 2008
- 7. CONSIDERATION OF WHETHER METRO SHOULD ALLOW PARACRUZ ELIGIBLE RIDERS FREE FARES ON METRO'S FIXED ROUTE
- 8. REPORT BY MAC REPRESENTATIVE TO OTHER TRANSIT RELATED MEETINGS
- 9. DISCUSS POSSIBILITY OF A WATSONVILLE MAC MEETING AND ALTERNATE MEETING LOCATIONS
- 10. DISTRIBUTION OF MAC VOUCHERS
- 11. COMMUNICATIONS TO METRO GENERAL MANAGER
- 12. COMMUNICATIONS TO METRO BOARD OF DIRECTORS
- 13. ITEMS FOR NEXT MEETING AGENDA
- 14. ADJOURNMENT

NEXT MEETING: WEDNESDAY, JANUARY 21, 2009, AT 6:00 PM PACIFIC STATION CONFERENCE ROOM

#### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

# Minutes - METRO Advisory Committee (MAC)

October 15, 2008

The METRO Advisory Committee (MAC) met on Wednesday, October 15, 2008 in the Pacific Station Conference Room located at 920 Pacific Avenue in Santa Cruz, California.

Chair Naomi Gunther called the meeting to order at 6:04 p.m.

# 1. ROLL CALL:

#### MEMBERS PRESENT

Naomi Gunther, Chair Heidi Curry Dennis "Pop" Papadopulo Stuart Rosenstein Dave Williams Robert Yount

## **MEMBERS ABSENT**

Mara Murphy, Vice Chair

#### **VISITORS PRESENT**

None

#### STAFF PRESENT

Mary Ferrick, Fixed Route Superintendent Margaret Gallagher, District Counsel April Warnock, Paratransit Superintendent

# 2. AGENDA ADDITIONS/DELETIONS

None.

# 3. ORAL/WRITTEN COMMUNICATION

Written:

a. E & D TAC

Re: METRO's Discount Bus Pass Policy

Robert Yount stated that they could discuss this letter under item 7. Chair Naomi Gunther agreed.

b. SCCRTC

Re: Kurtis Lemke ParaCruz Complaint

Margaret Gallagher said the complaint was investigated and most of the allegations were misunderstandings. Information and education were provided to the rider. Everyone was happy and there haven't been any problems with the service that METRO provides.

Oral:

None.

# 4. CONSIDERATION OF MINUTES OF September 17, 2008

Robert Yount made the following correction on page 3: Ms. Ferrick said she will mention it to Mr. Bauer, but there is nothing eminent imminent at this time.<sup>1</sup>

ACTION: MOTION: DENNIS "POP" PAPADOPULO SECOND: STUART ROSENSTEIN

ACCEPT AND FILE MINUTES OF THE SEPTEMBER 17, 2008 MEETING AS CORRECTED.

Motion passed with Dave Williams and Robert Yount abstaining and Mara Murphy being absent.

# 5. RIDERSHIP REPORT FOR JUNE 2008

Robert Yount was very impressed with over all ridership increase.

Chair Naomi Gunther commented they won't get the current report for many more months and thinks the numbers will be higher. She would like to have the Ridership Report be timelier and current to what's happening. She also mentioned the university buses are fuller and she is experiencing many pass bys. Some of the drivers are doing a really great job of asking riders to move back to fill the bus, but she thinks that some drivers are not used to the necessity of filling the buses and don't make that announcement or it cannot be heard when there is a full bus. Ms. Gunther noted that if the drivers are relying on the announcement it's completely ineffective. Also, you have to give people time to move back and allow new people to board. More fine-tuning is needed especially now that METRO is seeing such impacted buses.

Mary Ferrick stated that METRO runs as much service as it can and has put extra trips on the night owl because of the tremendous demand for service.

Dennis Papadopulo suggested passing the courtesy announcement information on to Frank Bauer. He also said that the 71 is having the same problem, way too full and people are being passed by. Stuart Rosenstein agreed. He stated that he took the 17 on a Sunday at 8:00pm and it was completely packed. He asked if extra buses could be put on that route. Mary Ferrick said that it's a matter of staffing and availability. METRO did run extra buses on Friday, October 10<sup>th</sup> and increased the number of runs on the weekend on Highway 17 in September, but METRO hasn't been able to add additional service later in the night.

# 6. PARACRUZ OPERATIONS STATUS REPORT FOR JUNE 2008

Dave Williams commented ParaCruz just keeps improving and he doesn't see how they can do it. It is unbelievable. They're going to be perfect one of these days.

<sup>&</sup>lt;sup>1</sup> This correction was made to the file copy of the September 17, 2008 minutes.

Minutes – METRO Advisory Committee October 15, 2008 Page 3 of 6

April Warnock attributes a lot of the ParaCruz success to their hard work and knowledge base. The stability that METRO has met for them in their jobs is really starting to show.

Dave Williams asked about the increase in ridership related to the dialysis issue. April Warnock answered that the transition to METRO peaked in May. June increased by 600 rides and about 450 of them are attributed to the dialysis.

Dave Williams asked about the fatigued rear axles. April Warnock responded that it is reflected in the ParaCruz driver cost per rides. They were all on the Venture mini vans. There were 16 of them at the time. They've all been replaced plus there are three in reserve in case any of the others fatigue too.

Robert Yount asked what the manufacturer says? April Warnock stated that Tom Stickel could probably answer that better than she could. Chevrolet was going to compensate METRO 9 axles due to a fleet defect because so many of them were defective at the same time. When the old ones were replaced, it was found that they had been modified. So they were not Chevrolet manufactured, but rather they were El Dorado. El Dorado claims they didn't modify the axles. METRO had to change the routing of the exhaust and has had to put heavier duty shock absorbers in the back of the vans with the new axles.

Dave Williams asked if someone modified the axle, which reduced the requirements of the load? April Warnock said that she really couldn't speak to that; it's not her expertise. METRO won't know until the new unmodified axles operate for 100,000 miles. If they show the same defect then that would indicate that the modification did not cause the problem, but if they don't then the modification could well have caused the fatigue of the axle.

Robert Yount suggested a company that traces the history of cars on line and asked if METRO could try that. April Warnock responded that she doesn't know how METRO's vehicles are registered and if they're in the same pool as consumer vehicles, but she will check.

Dave Williams would like more details and follow up on that information.

# 7. DISCUSSION OF DISCOUNTED BUS PASS PROGRAM POLICY CHANGES

Margaret Gallagher reported that she spoke to E & D TAC and they thought the policy was in good shape. They raised the following issues that will be highlighted in her staff report to the Board of Directors:

- 1. They wanted to know if it was legal for METRO to charge \$2.00 for the card and if so they were interested in METRO eliminating the \$2.00 cost. Ms. Gallagher replied that from her research at this point it is legal to charge \$2.00 for a card because the Discount Fare Policy predates the ADA.
- 2. They wanted the senior ride, which we have at 62 years of age be reduced to the age of 60. Ms. Gallagher stated that the Federal government only requires that METRO give a discount to people who are 65 years of age or older.

Minutes – METRO Advisory Committee October 15, 2008 Page 4 of 6

Chair Naomi Gunther asked how much would METRO lose if it didn't charge \$2.00? Margaret Gallagher said she would find out how many cards are issued in a year. Robert Yount noted the charge is reasonable and if you don't charge for it you're going to have more lost cards. Chair Naomi Gunther suggested you could raise the cost to replace a lost one.

Robert Yount asked if registration forms in item 1.02 were available at the Watsonville Transit Center. Margaret Gallagher noted the section regarding reduced fares for children was taken out of the *Headways* and she will check to make sure the registration forms are at the Watsonville Transit Center. Chair Naomi Gunther mentioned a previous discussion regarding an option of having it available online and that information should be included in the paragraph, too.

Margaret Gallagher asked for a motion to support the policy so she can tell the Board of Directors that MAC is in agreement with the current proposal with the changes that Robert Yount suggested with regard to the children's section.

ACTION: MOTION: DENNIS "POP" PAPADOPULO SECOND: ROBERT YOUNT

#### ACCEPT THE DISCOUNTED BUSS PASS PROGRAM POLICY PROPOSAL

# Motion passed unanimously with Mara Murphy being absent.

In regards to item 3a Robert Yount noted that METRO loses money each time riders use ParaCruz and would probably save money by giving them free rides, but if they can do free rides maybe they don't need ParaCruz. Chair Naomi Gunther agreed it would depend on what routes they're taking and at what times of day. If the result was that they start to ride fixed route at a time when it is already saturated then that would have a different kind of impact.

Dave Williams guesses that there is a significant number that jump back and forth between ParaCruz and the bus depending on what and when they're doing it. Also, they are going to take up a little more room on the bus in most cases.

Margaret Gallagher stated she has not done any kind of analysis regarding these issues, but thinks it would be important to review it and said she could come back at a later time to review the item.

# 8. REPORT BY MAC REPRESENTATIVE TO OTHER TRANSIT RELATED MEETINGS

Robert Yount discussed three important and ongoing items from BSAC meeting:

1. BSAC has been working with several agencies to make Freedom Blvd. more safe before there is a fatality. After much effort the County Public Works put up some signs about children crossing the road.

5-3.5

Minutes – METRO Advisory Committee October 15, 2008 Page 5 of 6

- 2. Bus Stop at Soquel/Daubenbiss needed modifications before an accident occurred. Pictures were taken of its condition and a crew was out there within a few days and removed the bench. Now it is in the process of contracting out for engineering and building a bus stop there.
- 3. Turn around on Big Basin Way at China Grade. METRO had to buy a triangle of land and pave it over for a turn around for necessary improvements.

He read from a list of needed shelters and shared the news regarding a letter Mark Stone wrote to the owner of Felton Faire and carbon copied all the business associations in the Valley in regards to replacing a covered bus stop there.

# 9. DISCUSSION OF ADVERTISING MAC MEETING

Margaret Gallagher apologized to MAC members for the miscommunication between METRO staff in regards to next month's meeting. Staff did not understand until last month that MAC was planning on meeting in Watsonville. METRO staff checked the minutes and couldn't find an actual motion made to go to Watsonville. She spoke to the General Manager, whom asked that they put this item on next month's agenda with a full report and analysis of going to Watsonville City Council Chambers. She explained that the Watsonville City Council Chambers is not staffed in the evenings and METRO staff would need to arrange for one of the city's staff members to be present for opening and closing the building upon approval of METRO's request to hold a MAC meeting there.

Chair Naomi Gunther apologized for not going through the right process because the intention was not to surprise or impact the staff in any way only to increase attendance and attract new MAC members.

Stuart Rosenstein stated that he didn't know they had to do a motion to vote on having the meeting at another location. He thought all they needed to do was create a calendar. Margaret Gallagher stated there is usually a motion when you approve a calendar.

Stuart Rosenstein mentioned that if they come up with a calendar date for Watsonville that they add an agenda item for outreach to highlight it being there and include Spanish translation. Chair Naomi Gunther suggested part of the outreach specific to the Watsonville meeting would be what tasks will be required by a certain date and who is going to do those tasks to be ready to see if Watsonville is an option.

## 10. DISTRIBUTION OF MAC VOUCHERS

Mary Ferrick distributed METRO MAC vouchers to the MAC members at this time.

# 11. COMMUNICATIONS TO METRO GENERAL MANAGER

Stuart Rosenstein stated he takes the 69 between 5:30 and 6:00 pm and it's been consistently late by 10 minutes or more. When he mentions it to the driver their reply is it's

Minutes – METRO Advisory Committee October 15, 2008 Page 6 of 6

not their fault that there is traffic. His schedule is based on the scheduling published in the *Headways* if they're late then he's late. He would like the bus schedule to reflect traffic for future *Headways* because there is a consistency of tardiness.

Mary Ferrick asked if he wanted the *Headways* to say schedules may vary due to traffic congestion or the time point on the routes to be changed and relate to an increase in *Headways* because METRO can't meet the schedule that's posted. Stuart Rosenstein answered yes to both. He suggested that in the next *Headways* it say that during rush hour please adjust your schedule due to traffic beyond the control of the driver. He wants to thank the drivers for the good work that they're doing and recognizes that there are certain stress levels put on them that are beyond their control.

# 12. COMMUNICATIONS TO METRO BOARD OF DIRECTORS

None.

# 13. ITEMS FOR NEXT MEETING AGENDA

- Discuss Possibility of a Watsonville Meeting and Alternate Meeting Locations
- Consideration of Whether METRO Should Allow ParaCruz Eligible Riders Free Fares on METRO'S Fixed Route
- Headways Bus Schedules

#### **ADJOURN**

There being no further business, Chair Naomi Gunther thanked everyone for participating and adjourned the meeting at 7:24 p.m.

Respectfully submitted.

KAREN BLIGHT

Administrative Assistant

# SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19th, 2008

TO:

**Board of Directors** 

FROM:

April Warnock, Paratransit Superintendent

SUBJECT: METRO PARACRUZ OPERATIONS STATUS REPORT

## I. RECOMMENDED ACTION

# This report is for information only - no action requested

#### II. SUMMARY OF ISSUES

- METRO ParaCruz is the federally mandated ADA complementary paratransit program of the Transit District, providing shared ride, door-to-door demand-response transportation to customers certified as having disabilities that prevent them from independently using the fixed route bus.
- METRO assumed direct operation of paratransit services November 1, 2004.
- Operating Statistics and customer feedback information reported are for the month of September 2008.
- ParaCruz Performance Goals are reflected in the Comparative Statistics Table in order to better compare actual performance.
- A breakdown of pick-up times beyond the ready window is included.

#### III. DISCUSSION

METRO ParaCruz is the federally mandated ADA complementary paratransit program of the Transit District, providing shared ride, door-to-door demand-response transportation to customers certified as having disabilities that prevent them from independently using the fixed route bus.

METRO began direct operation of ADA paratransit service (METRO ParaCruz) beginning November 1, 2004. This service had been delivered under contract since 1992.

There has been discussion regarding ParaCruz on-time performance. It was noted that most statistical data continues to show improvement, the reported percentage of pick ups performed within the "ready window" has remained relatively consistent, hovering at roughly 90%. Staff was requested to provide a break down reflecting pick-ups beyond the "ready window".

Board of Directors Board Meeting December 19<sup>th</sup>, 2008 Page 2

The table below displays the percentage of pick-ups within the "ready window" and a breakdown in 5-minute increments for pick-ups beyond the "ready window".

	September 2007	September 2008
Total pick ups	77462	8050
Percent in "ready window"	93.11%	93.51%
1 to 5 minutes late	2.67%	2.78%
6 to 10 minutes late	1.78%	1.93%
11 to 15 minutes late	1.09%	1.33%
16 to 20 minutes late	.38%	.72%
21 to 25 minutes late	.24%	.39%
26 to 30 minutes late	.23%	.37%
31 to 35 minutes late	.08%	.17%
36 to 40 minutes late	.05%	.07%
41 or more minutes late		
(excessively late/missed trips)	.03%	.05%
Total beyond "ready window"	6.89%	7.49%

During the month of September 2008, ParaCruz received two (2) Customer Service complaints and one (1) compliment. One (1) of the complaints were found to be "not verifiable". One (1) complaint was valid, and related to a malfunction with the Eligibility Phone line, which resulted in a delay in scheduling an assessment appointment.

As a way to monitor performance for selected items, two new columns have been added to the Comparative Operating Statistics Table. They are titled, respectively, 'Performance ' and 'Performance Goals'. These new columns identify what the average is for the unpredictable factors, and performance goals that we have established for reported items where performance is a critical indicator to ParaCruz' efficiency.

# IV. FINANCIAL CONSIDERATIONS

### PASSENGER LIFT PROBLEMS

### MONTH OF OCTOBER 2008

BUS#	DATE	DAY	REASON
9801LF	1-Oct	Wednesday	Ramp doesn't deploy.
2219CN	2-Oct	Thursday	Left side w/c yellow stop pad lettering is worn off.
?	3-Oct	Friday	Ramp? not activated.
9829LF	5-Oct	Sunday	Ramp sticks to floor.
8100F	6-Oct	Monday	Beeping continuous when trying to come out of kneel. Kneel sticks on bus has to be shut down to reset.
9838G	7-Oct	Tuesday	Bus stuck in kneel.
9834G	7-Oct	Tuesday	X-lift will not raise.
2307OR	8-Oct	Wednesday	Securement arm.
9829LF	8-Oct	Wednesday	Ramp won't deploy automatically. Sticks at corner nearest bolwer's(?) seat.
2307OR	9-Oct	Thursday	Securement arm.
2306OR	9-Oct	Thursday	Kneel light out (door lamp light)
9801LF	13-Oct	Monday	Ramp will not deploy.
9838G	14-Oct	Tuesday	Kneel will not raise up.
2208CG	18-Oct	Saturday	Curbside seat will not stay up in w.c. area. Can only take a w.c. on driver side. It's the seat facing forward.
8103F	20-Oct	Monday	Will not stay lowered.
2303OR	20-Oct	Monday	Couldn't get the securement bar to raise up.
2230CN	20-Oct	Monday	Wheel Chair Securement bar on floor is very sticky to pull out for adjustment. May need lubricant (WD40)
9835G	21-Oct	Tuesday	Does not work.
9838G	22-Oct	Wednesday	Must restart bus to get out of kneel.
2808LF	23-Oct	Thursday	Streetside facing seat in w/c area will not go up.
9840G	24-Oct	Friday	Kneel takes a very long time to come back up.
9801LF	27-Oct	Monday	Ramp does not automatically deploy.
9801LF	28-Oct	Tuesday	Ramp will not deploy w/switch.
2303OR	29-Oct	Wednesday	Not kneeling.
9838G	29-Oct	Wednesday	Kneel will not go up anymore.
2808LF	29-Oct	Wednesday	Streetside facing seat in w/c area will not fold up.
9825LF	29-Oct	Wednesday	W/C tie-down straps are filthy.
9838G	31-Oct	Friday	Kneel does not raise.
2229CN	31-Oct	Friday	Bus moves when door open & kneeling.

### **Dropped Service Breakdown for October 2008**

DATE: Dec

December 19, 2008

TO:

Board of Directors

FROM:

Angela Aitken, Finance Manager

**SUBJECT:** 

UNIVERSITY OF CALIFORNIA – SANTA CRUZ MONTHLY SERVICE

**OCTOBER 2008 VERSUS OCTOBER 2007** 

### I. RECOMMENDED ACTION

### This report is for information purposes only. No action is required

### II. SUMMARY OF ISSUES

- UCSC Fall service began on September 22, 2008 and will end December 11, 2008
- There were twenty-three (23) school-term days in 2008 and in 2007
  - Revenue received from UCSC was \$449,579 versus \$373,240; an increase of 20.5%
  - System-wide UCSC ridership increased by 7.4%
    - Total student ridership increased by 8.1%
    - Total Faculty/Staff ridership decreased by 4.7%
  - Average Student ridership per school-term day increased by 6.7%
  - Average Faculty/Staff ridership per weekday decreased by 3.8%

### III. DISCUSSION

UCSC Fall service began on September 22, 2008 and will end on December 11, 2008. For the month of October 2008, there were twenty-three (23) school-term days; the same as there were in October 2007.

UCSC Revenue increased a total of \$76,339; or 20.5%. UCSC ridership for all METRO routes was up 7.4%. This includes an 8.1% increase in student ridership and a 4.7% decrease in Faculty/ Staff ridership.

Please see attached graphs that will depict Total UCSC Student and Faculty/Staff ridership increasing by 6.7% and decreasing by 3.8% respectively.

Board of Directors Board Meeting of September 12, 2008 Page 2

### IV. FINANCIAL CONSIDERATIONS.

Overall UCSC revenue is over budget by 15% YTD as of October 2008.

### STAFF REPORT

DATE:

December 19, 2008

TO:

Board of Directors

FROM:

Margaret Gallagher, District Counsel

SUBJECT:

CONSIDERATION OF OWNED AND LEASED PROPERTY

INVENTORIES TO DETERMINE IF THERE IS ANY PROPERTY IN EXCESS OF SANTA CRUZ METROPOLITAN TRANSIT DISTRICT'S

FORESEEABLE NEEDS

#### I. RECOMMENDED ACTION

Accept and File Santa Cruz METRO's Property Inventories of Leased and Owned Property for 2008, which includes a Determination that METRO does not own, Lease or Control any Property which is in excess of its Foreseeable Needs.

### II. SUMMARY OF ISSUES

- Santa Cruz Metropolitan Transit District is required on an annual basis to prepare inventories of properties it holds, owns and controls to determine if any properties are in excess of its foreseeable needs.
- All properties leased by Santa Cruz METRO are currently being used in transit operation for bus maintenance, bus parking, administration and facilities maintenance activities.
- All properties leased, owned or controlled by Santa Cruz METRO are in transit uses and none of these properties are in excess of METRO's foreseeable needs.

### III. DISCUSSION

Government Code Section 50569 requires that on or before December 31<sup>st</sup> of each year, Santa Cruz METRO, a local agency, make an inventory of all lands held, owned or controlled by it or any of its departments, agencies or authorities to determine what land, including air rights, if any, are in excess of its foreseeable needs. According to the statute, a description of each parcel found to be in excess of its needs should be made a matter of public record.

An inventory of all the properties owned by Santa Cruz Metro, prepared by the Finance Department is set forth in Attachment A. The only change since December 2007 has been the purchase of the 1211 River Street and 1217 River Street properties and it has been added to the inventory list.

An inventory of properties that Santa Cruz METRO leases from others is set forth in Attachment B. All of the leased property is currently being used for transit operation and related support

Board of Directors Board Meeting of December 19, 2008 Page 2

functions. The only changes since 2007 are incremental rent increases for certain leases requiring CPI adjustments.

According to the applicable statute, any citizen, limited dividend corporation, housing corporation or nonprofit corporation, shall upon request, be provided with a list of the parcels found to be in excess without charge. Because METRO uses all of its leased and owned property in transit or transit related purposes, no list of excess properties was prepared for adoption.

The Federal Transit Administration Circular 5010.1C requires METRO to prepare and keep up to date an excess property utilization plan for all property that is no longer needed to carry out the original intended purpose including an explanation for the excess property. METRO is also required to notify FTA when property is removed from the service originally intended at grant approval and put to additional or substitute uses. At this time, METRO has no excess property and, therefore, will not be preparing an excess property utilization plan.

Board of Directors

FROM:

Leslie R. White, General Manager

**SUBJECT:** 

CONSIDERATION OF RECEIPT OF INFORMATION FROM THE GENERAL MANAGER REGARDING HIS ATTENDANCE AT THE FALL MEETING OF THE CALIFORNIA TRANSIT ASSOCIATION

**NOVEMBER 4-7, 2008** 

#### I. RECOMMENDED ACTION

That the Board of Directors accept and file information from the General Manager regarding his attendance at the Fall Meeting of the California Transit Association November 12-14, 2007.

### II. SUMMARY OF ISSUES

- The California Transit Association (CTA) held the 2008 Fall Meeting from November 4-7, 2008 in Monterey, California. I attended the CTA Fall Meeting representing Santa Cruz METRO. Additionally, Mark Dorfman, Debbie Kinslow, Mary Ferrick, and Shona Harper attended the CTA 2008 EXPO where vendors were presenting information regarding services and products.
- As a part of the CTA Fall Meeting I participated in a number of instructional sessions and committee meetings that were held.
- I attended and participated in sessions and committee meetings devoted to legislative issues, transit project funding and management issues.
- I also attended conference sessions addressing: land use and transportation planning issues relating to SB 375, issues relating to small system operations, and issues related to "green" technology and global warming, including the requirements of AB 32.
- Additionally I attended the meeting of the CTA Executive Committee where I am serving as a Member of the Executive Committee completing the first year of a two-year term that will conclude in November 2009.
- I also participated as a presenter on the opening General Session panel where federal and state transit funding issues were debated.

Board of Directors Board Meeting of December 19, 2008 Page 2

### III. DISCUSSION

The California Transit Association (CTA) held the 2008 Fall Meeting from November 4-7, 2008 in Monterey, California. I attended the CTA Fall Meeting representing Santa Cruz METRO. Additionally, Mark Dorfman, Debbie Kinslow, Mary Ferrick, and Shona Harper attended the CTA 2008 EXPO where vendors were presenting information regarding services and products. As a part of the CTA Fall Meeting I participated in a number of instructional sessions and committee meetings that were held.

I attended and participated in sessions and committee meetings devoted to legislative issues, transit project funding and management issues. I also attended conference sessions addressing: land use and transportation planning issues relating to SB 375, issues relating to small system operations, and issues related to "green" technology and global warming, including the requirements of AB 32. I also participated as a presenter on the opening General Session panel where federal and state transit funding issues were debated.

Additionally I attended the meeting of the CTA Executive Committee where I am serving as a Member of the Executive Committee completing the first year of a two-year term that will conclude in November 2009.

Overall, I found the CTA Fall Meeting to be very well balanced and informative. The time devoted to both committee meetings and instructional sessions was very productive. A considerable amount of attention and discussion was devoted to the State of California budget and the transit funding problems that it has caused. The current lawsuit that the CTA has filed against the State of California received a lot of attention. Lastly, the vendor equipment exhibits provided valuable information and insight into products that are being developed to improve the quality of transit services that are being provided to the citizens of California.

### IV. FINANCIAL CONSIDERATIONS

Funds for the General Manager and Staff Members to attend the Fall Meeting of the California Transit Association were provided for in the FY 2009 Operating Budget.

#### V. ATTACHMENTS

DATE: December 19, 2008

**TO:** Board of Directors

**FROM:** Leslie R. White, General Manager

SUBJECT: CONSIDERATION OF CONTRACT EXTENSION WITH CAROLYN C.

**CHANEY & ASSOCIATES FOR FEDERAL LEGISLATIVE** 

REPRESENTATIVE SERVICES

#### I. RECOMMENDED ACTION

It is recommended that the Board of Directors authorize the General Manager to enter into a contract extension with Carolyn C. Chaney & Associates for Federal Legislative Representative Services in an amount not to exceed \$60,000 per year plus up to \$4,000 for expenses.

#### II. SUMMARY OF ISSUES

- METRO has had a contract with Carolyn C. Chaney & Associates for the past ten years.
- The current contract approved by the Board of Directors on January 27, 2006 for a term of one year with four options for renewal for one year each.
- Carolyn C. Chaney & Associates has effectively represented METRO in Washington D.C. and therefore, a contract extension is recommended.

#### III. DISCUSSION

METRO has utilized the services of a professional firm for legislative representation at the federal level for ten years. METRO has been successful in getting federal earmarks and having language beneficial to METRO included in legislation. The firm that has had the contract for the past ten years is Carolyn C. Chaney & Associates.

On January 27, 2006 the Board of Directors authorized the execution of a contract with Carolyn C. Chaney & Associates for a one-year period of time with four one-year extensions as an option. The selection of Carolyn C. Chaney & Associates was the result of a Request for Proposals (RFP) process, which was issued on November 9, 2005. Last year the Board of Directors approved a one-year contract extension with Carolyn C. Chaney & Associates, leaving two one-year extensions remaining on the contract.

Over the past year, the quality of service provided by Carolyn C. Chaney & Associates has been excellent and METRO has had effective representation with regard to major legislative issues. In the coming year, Federal Authorization and Federal Regulatory issues will require the

Board of Directors Board Meeting of December 19, 2008 Page 2

continuation of a firm located in Washington D.C. to represent METRO. Staff recommends that METRO exercise the option for a one-year contract extension with Carolyn C. Chaney & Associates for an amount not to exceed \$60,000 plus reimbursement of up to \$4,000 for expenses incurred as a part of the contract. Eligible expenses would include long distance telephone charges, photocopying, postage, courier, overnight mail and other types of expenses appropriate to representation of METRO . Staff further recommends that the Board of Directors authorize the General Manager to sign a one-year contract extension on behalf of METRO .

### IV. FINANCIAL CONSIDERATIONS

Funds are included in the fiscal year 2008-09 budget necessary to support this contract.

LOCAL GOVERNMENT CONSULTANTS

November 26, 2008

Mr. Leslie R. White General Manager Santa Cruz Metropolitan Transit District 370 Encinal Street, Suite 100 Santa Cruz, CA 95060

Dear Les:

Please consider this a formal request to extend for twelve months the contract between the Santa Cruz Metropolitan Transit District and Carolyn C. Chaney & Associates, Inc. for Federal Legislative Services. In addition, we do not propose any modifications to our current agreement.

This next year should be extremely active in Washington as the new Administration comes together and is faced with the daunting job of shoring up the economy, creating and retaining jobs, and turning to an important component of both—infrastructure needs. As you know, transit has had substantial funding contained in all proposed stimulus bills. We are hopeful to be able to retain that in the next iteration of the package that the Obama Transition Team is putting together and plan to have passed in January or early February.

In addition, when Congress reconvenes in January, there is hope that the Congress will pass an Omnibus Appropriations bill for FY 2009 so that they can then turn to FY 2010. Thus, there is still a possibility of funding for Metro in this package.

And, of course, the transportation authorization lapses next year. With the increase in transit ridership due to gas prices, this could be a unique time to increase the role of transit. In addition, with the Trust Fund in jeopardy, we will continue to grapple with the overall question of how federal surface transportation projects will be funded. We know that with your considerable history and knowledge, you will continue to be an important part of that discussion.

As always, it has been a pleasure for Chris and I to serve you, your staff, and the METRO Board over the past year, and we look forward to a continued relationship. Please let us know at your convenience if you have any questions or comments about the contract.

Sincerely,

Carolyn C. Čhane

President

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT THIRD AMENDMENT TO CONTRACT NO. 05-11 FOR FEDERAL LEGISLATIVE REPRESENTATIVE SERVICES

This Third Amendment to Contract No. 05-11 for federal legislative representative services is made effective February 1, 2009 between the Santa Cruz Metropolitan Transit District, a political subdivision of the State of California ("District") and Carolyn C. Chaney and Associates ("Contractor").

### I. RECITALS

- 1.1 District and Contractor entered into a Contract for federal legislative representative services ("Contract") on February 1, 2006.
- 1.2 The Contract allows for the extension upon mutual written consent.

Therefore, District and Contractor amend the Contract as follows:

### II. TERM

2.1 Article 3.02 is amended to include the following language:

This contract shall continue through January 31, 2010. This Contract may be mutually extended by agreement of both parties.

### III. REMAINING TERMS AND CONDITIONS

3.1 All other provisions of the Contract that are not affected by this amendment shall remain unchanged and in full force and effect.

### IV. AUTHORITY

4.1 Each party has full power to enter into and perform this Third Amendment to the Contract and the person signing this Third Amendment on behalf of each has been properly authorized and empowered to enter into it. Each party further acknowledges that it has read this Third Amendment to the Contract, understands it, and agrees to be bound by it.

TO:

Board of Directors

FROM:

Leslie R. White, General Manager

**SUBJECT:** 

CONSIDERATION OF CONTRACT EXTENSION WITH SHAW/YODER,

INC. FOR STATE LEGISLATIVE SERVICES.

### I. RECOMMENDED ACTION

It is recommended that the Board of Directors authorize the General Manager to enter into a one-year contract extension with Shaw/Yoder, Inc. for State Legislative Services in an amount not to exceed \$30,000.

### II. SUMMARY OF ISSUES

- METRO has a contract with Shaw/Yoder, Inc. for the State Legislative Services.
- The Board of Directors approved the current contract on December 16, 2005 for a term of one year with four options for renewal for one-year each.
- Shaw/Yoder, Inc. has effectively represented METRO in Sacramento over the course of the past year and therefore, a contract extension is recommended.

### III. DISCUSSION

METRO has utilized the services of a professional firm for legislative representation at the state level for eight years. On December 16, 2005, the Board of Directors authorized the General Manager to execute a one-year contract with the option of four (4) one-year extensions with Shaw/Yoder, Inc. for professional legislative services.

The selection of Shaw/Yoder, Inc. was the result of a Request for Proposal (RFP) process that was issued on October 27, 2005 and sent to sixteen firms. An evaluation committee screened the top two firms and recommended the selection of Shaw/Yoder, Inc. to represent METRO.

Over the past year, Shaw/Yoder, Inc. has done an excellent job representing the interests of METRO at the state level. Shaw/Yoder, Inc. has been effective in maintaining open lines of communication with members of the Assembly and the Senate as well as the Office of the Governor. METRO staff recommends that METRO exercise the option for a one-year extension with Shaw/Yoder, Inc. for an amount not to exceed \$30,000. Staff further recommends that the Board of Directors authorize the General Manager to sign a one-year contract extension on behalf of METRO.

Board of Directors Board Meeting of December 19, 2008 Page 2

### IV. FINANCIAL CONSIDERATIONS

Funds are included in the 2008-09 budget necessary to support this contract.

December 1, 2008

Lloyd Longnecker Purchasing Agent Santa Cruz Metropolitan Transit District 110 Vernon Street, Suite B Santa Cruz, CA 95060

Re: District Contract No. 05-08 for State Legislative Services

Dear Mr. Longnecker:

I received your correspondence of November 24<sup>th</sup>, offering a third amendment to the contract between METRO and my firm for State Legislative Services. On behalf of Shaw / Yoder, Inc., we would be pleased to enter into a third one-year extension of the original contract, for the period from January 1, 2009 to December 31, 2009. We are satisfied with all current terms and conditions, and propose no changes.

Thank you for this opportunity to continue our service to METRO.

Sincerely,

Joshua W. Shaw

Partner

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT THIRD AMENDMENT TO CONTRACT NO. 05-08 FOR STATE LEGISLATIVE SERVICES

This Third Amendment to Contract No. 05-08 for State Legislative Services is made effective January 1, 2009 between the Santa Cruz Metropolitan Transit District, a political subdivision of the State of California ("District") and Shaw/Yoder, Inc. ("Contractor").

### I. RECITALS

- 1.1 District and Contractor entered into a Contract for State Legislative Services ("Contract") on January 1, 2006.
- 1.2 The Contract allows for the extension upon mutual written consent.

Therefore, District and Contractor amend the Contract as follows:

### II. TERM

2.1 Article 4.01 is amended to include the following language:

This Contract shall continue through December 31, 2009. This Contract may be mutually extended by agreement of both parties.

#### III. REMAINING TERMS AND CONDITIONS

3.1 All other provisions of the Contract that are not affected by this amendment shall remain unchanged and in full force and effect.

### IV. AUTHORITY

4.1 Each party has full power to enter into and perform this Third Amendment to the Contract and the person signing this Third Amendment on behalf of each has been properly authorized and empowered to enter into it. Each party further acknowledges that it has read this Third Amendment to the Contract, understands it, and agrees to be bound by it.

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19, 2008

TO:

**Board of Directors** 

FROM:

Angela Aitken, Finance Manager Ciro Aguirre, Operations Manager

SUBJECT:

CONSIDERATION OF CONTRACT RENEWAL FOR PRINTING OF

HEADWAYS WITH FRICKE-PARKS PRESS, INC.

### 1. RECOMMENDED ACTION

That the Board of Directors authorize the General Manager to enter into a one-year contract extension with Fricke-Parks Press, Inc. for the printing of *Headways* for an amount not to exceed \$30,000.

### II. SUMMARY OF ISSUES

- METRO has a contract with Fricke-Parks Press, Inc. for the printing of *Headways*.
- The current contract approved by the Board of Directors will expire on December 31, 2008.
- Fricke-Parks Press, Inc. has requested a 2 % cost of living increase for the new contract period.
- Fricke-Parks Press, Inc. has performed its duties very well under this contract and therefore, a contract extension with a 2% cost of living increase is recommended.

### III. DISCUSSION

METRO has a contract with Fricke-Parks Press, Inc. for the printing of *Headways* that is due to expire on December 31, 2008. Over the past year, the quality of service provided by Fricke-Parks Press, Inc. has been excellent. Fricke-Parks Press, Inc. has reviewed the contract and has requested a 2 % cost of living increase. This requested increase is below the annual percentage change of the Consumer Price Index for the San Francisco, Oakland, San Jose Area which is allowed for under the contract terms and conditions.

Staff recommends that METRO exercise the option for a one-year contract extension with Fricke-Parks Press, Inc. for an amount not to exceed \$30,000. Staff further recommends that the Board of Directors authorize the General Manager to sign a one-year contract extension on behalf of METRO.

### IV. FINANCIAL CONSIDERATIONS

Funds to support this contract are included in the Customer Service FY09 printing budget.

Board of Directors Board Meeting of December 19, 2008 Page 2

Prepared By: Lloyd Longnecker, Purchasing Agent

December 1, 2008

Lloyd Longnecker Purchasing Agent Santa Cruz Metropolitan Transit District-Metro 370 Encinal Street, Suite 100 Santa Cruz, Ca. 95060

This letter is to inform you that it is the intend of FRICKE-PARKS PRESS Inc. to extend the current contract (08-12 PO # 2800700-C) with the Santa Cruz Metropolitan Transit District.

This period will extend from January 1, 2009 through December 31, 2009.

We request the following Amendment be made. A cost of living increase to cover the Newsprint increases of 2%.

Thank you for the opportunity to continue to be your printer on your HEADWAYS Publication.

/Sincerely

Çarlos Armenta

Sales Manager

Regards,

Dave Brown

President

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT FIRST AMENDMENT TO CONTRACT NO. 08-12 FOR PRINTING OF HEADWAYS

This First Amendment to Contract No. 08-12 for Printing of Headways is made effective January 1, 2009 between the Santa Cruz Metropolitan Transit District, a political subdivision of the State of California ("District") and Fricke Parks Press, Inc. ("Contractor").

### I. RECITALS

- 1.1 District and Contractor entered into a Contract for Printing of Headways ("Contract") on January 1, 2008.
- 1.2 The Contract allows for the extension upon mutual written consent.
- 1.3 Contractor has requested an increase in the rate of compensation as allowed in the contract.

Therefore, District and Contractor amend the Contract as follows:

### II. TERM

2.1 Article 3.02 is amended to include the following language:

This Contract shall continue through December 31, 2009. This Contract may be mutually extended by agreement of both parties.

### II. COMPENSATION

3.1 Article 5.01 is amended to include the following language:

Effective January 1, 2009, the rate of compensation shall be increased 2 %.

### IV. REMAINING TERMS AND CONDITIONS

4.1 All other provisions of the Contract that are not affected by this amendment shall remain unchanged and in full force and effect.

### V. AUTHORITY

Each party has full power to enter into and perform this First Amendment to the Contract and the person signing this First Amendment on behalf of each has been properly authorized and empowered to enter into it. Each party further acknowledges that it has read this First Amendment to the Contract, understands it, and agrees to be bound by it.

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19, 2008

TO:

**Board of Directors** 

FROM:

Leslie R. White, General Manager

SUBJECT:

CONSIDERATION OF CONTINUING SPONSORSHIP OF LEADERSHIP SANTA CRUZ COUNTY IN ORDER TO PROVIDE EDUCATION ON TRANSPORTATION ISSUES, SERVICES, AND FACILITIES AND TO PROVIDE THE OPPORTUNITY FOR METRO STAFF TO

PARTICIPATE IN THE PROGRAM.

### T. RECOMMENDED ACTION

That the Board of Directors approve METRO continuing to be a sponsor of the Leadership Santa Cruz County Program, providing information regarding public transit services and facilities to the class Members, and providing buses on April 3, 2009, May 29, 2009, and June 12, 2009 for tours of various facilities and activities.

### II. SUMMARY OF ISSUES

- The Leadership Santa Cruz County program provides information regarding activities throughout the County for a class of approximately 50 individuals annually.
- In 2005 the Board of Directors approved METRO becoming a sponsor of the Leadership Santa Cruz County Program by providing information regarding services and facilities, and by providing a bus for one day to tour various facilities and view activities. The Board has continued the sponsorship of Leadership Santa Cruz County in 2006, 2007, and 2008.
- The Leadership Santa Cruz County staff has requested that METRO continue to be a sponsor of the program by providing information to members of the class and by providing a bus for a tour of various facilities on April 3, 2009, May 29, 2009, and June 12, 2009.
- Prior to 2005 METRO had not participated in providing information to the Leadership Santa Cruz County classes nor sponsored the program. In 2007/2008 a Member of the METRO staff took advantage of the Leadership Santa Cruz County by participating in the program and in 2008/2009 two additional METRO staff members are participating in the program. The program is provided to METRO staff members at no cost in exchange for the bus service that METRO has provided through its sponsorship.
- The cost of becoming a sponsor of Leadership Santa Cruz County would be the cost of providing the buses for the facilities tours on April 3, 2009, May 29, 2009, and

Board of Directors Board Meeting of December 19, 2008 Page 2

June 12, 2009. The estimated cost for providing the buses for the Leadership Santa Cruz County tours is \$2,000.

• Staff recommends that the Board of Directors approve the request from Leadership Santa Cruz County staff.

### III. DISCUSSION

The Leadership Santa Cruz County Program provides information about, and orientation to, various programs and facilities annually for approximately 50 individuals from the community. Many of these individuals hold key leadership positions in the community.

In 2005 METRO received a request for program sponsorship from Gary W. Smith, Executive Director of Leadership Santa Cruz County. The requested sponsorship was in the form of providing a bus for a tour of facilities, and a presentation by METRO of information about the system, services, facilities and projects. The Board of Directors approved the sponsorship request and the event was very successful. METRO has continued to be a sponsor of the program in 2006, 2007, and 2008. Leadership Santa Cruz County has requested that METRO continue to be a sponsor of the program by providing support, including the bus on three different days, for programs this year. A copy of the request letter from the new Leadership Santa Cruz County Executive Director David Vincent is attached to this Staff Report. Participating in the Leadership Santa Cruz County program provides an opportunity to orient individuals regarding the benefits of a strong public transit system.

Prior to 2005 METRO had not participated in providing information to the Leadership Santa Cruz County classes nor sponsored the program. In 2007/2008 a Member of the METRO staff took advantage of the Leadership Santa Cruz County by participating in the program and has found it to be very beneficial. In 2008/2009 two METRO staff members are participating in the Leadership Santa Cruz County Program. Based on the experiences of participating staff members, METRO intends to send additional staff members to the program next year. The program is provided to METRO staff members at no cost in exchange for the bus service that METRO provides through its sponsorship

Staff recommends that the Board of Directors approve the request to continue sponsorship of Leadership Santa Cruz County, including the provision of buses for tours of facilities and activities on April 3, 2009, May 29, 2009 and June 12, 2009.

### IV. FINANCIAL CONSIDERATIONS

The cost of becoming a sponsor of the Leadership Santa Cruz County program through providing buses for facilities tours on April 3, 2009, May 29, 2009 and June 12, 2009 would be approximately \$2,000 plus presentation materials.

Watsonville Hospital Les White General Manager Santa Cruz Metropolitan Transit District 370 Encinal Street, Suite 100 Santa Cruz, CA 95060

Dear Mr. White:

On behalf of the Leadership Santa Cruz County Board, allow me to express our sincere gratitude for the support that the Santa Cruz Metropolitan Transit District has given LSCC over the years. LSCC simply could not be in a position to help existing and emerging leaders in our community without the help of organizations like yours. This year we are glad to have two of your employees, Mary Ferrick and April Warnock, participating in Class 24. Not only are they learning a great deal about their community, but they are contributing to the class in many significant ways.

The purpose of this letter is to request the help of the SCMTD for this year's class. In the coming months we will need to transport the class to various parts of the county as part of their learning experience. As you have seen in the past, it is extremely helpful when the class can travel as a group so that they can learn while in transit and also discuss matters amongst themselves. Specifically, it would be of tremendous help if SCMTD could supply the transportation needs for approximately 40 students on the following dates:

- The Pajaro Valley Day April 3, 2009.
- The Agriculture & Food Processing Day May 29, 2009.
- The Environment & Industry Day June 12, 2009

Thank you for your consideration of this request. LSCC is proud to have you as a partner.

Sincerely,

David Vincent, Executive Director Leadership Santa Cruz County

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

### STAFF REPORT

DATE:

December 19, 2008

TO:

Board of Directors

FROM:

Marganet Gallagher, District Counsel

**SUBJECT:** 

REVIEW AND UPDATE OF METRO STAFF'S IMPLEMENTATION OF

**BOARD ADOPTED ADA/504 TRANSITION PLAN** 

### I. RECOMMENDED ACTION

### Accept and file report. Continue matter to July 2009 for further review.

### II. SUMMARY OF ISSUES

- In December 2002, the Santa Cruz Metropolitan Transit District (METRO) modified its ADA Complaint Procedure to include a requirement that the General Manager or his/her designee evaluate METRO's programs, activities and services and the effects thereof to determine whether all the requirements of the ADA and the 504 statutes and regulations are met.
- In June 2005, the METRO Board of Directors authorized the award of a contract to Pat Piras Consulting to provide an ADA/504 Review of METRO's programs, activities and services. Pat Piras Consulting completed its evaluation in February 2008, (Attachment A).
- The Board of Directors reviewed the Piras report, together with METRO's responses to the recommended actions in the final report at its June 27, 2008 meeting, which included a proposed Transition Plan to implement the recommended changes.
- At that time, METRO staff proposed to review the Transition Plan in December 2008 to update the Board of Directors with the status of implementing the Plan.
- Attachment B is a summary that includes four columns: 1) Recommended actions in the Piras Report; 2) METRO's responses to the recommendations; 3) The Transition Plan adopted by the Board at its June 27, 2008 meeting; and 4) Status of the Transition Plan.

### III. DISCUSSION

On December 13, 2002, METRO's Board of Directors modified the METRO's ADA/504 complaint procedures to include an evaluation of METRO's programs, activities and services to determine whether they are accessible to individuals with disabilities and met the requirements of the ADA/504 laws and regulations. This policy change was designed to ensure that METRO investigate and complete an evaluation of its current services, programs and activities.

Board of Directors Board Meeting of December 19, 2008 Page 2

On June 24, 2005, Santa Cruz METRO's Board of Directors awarded the contract for this project to Pat Piras Consulting. Pat Piras Consulting Final Report dated February 2008 (Attachment A) prepared for Santa Cruz Metropolitan Transit District was reviewed by the Board of Directors at its June 27, 2008 regular board meeting together with METRO's staff responses to the recommended actions, in addition to a proposed Transition Plan to implement certain recommended changes. At that time, METRO staff proposed a review of the Transition Plan in December 2008 to provide an update to the Board of Directors of the progress made toward implementing the Plan.

Attachment B is a summary that includes four columns: 1) Recommended actions in the Piras Report; 2) METRO's responses to the recommendations; 3) The Transition Plan adopted by the Board at its June 27, 2008 meeting; and 4) Status of the Transition Plan.

### IV. FINANCIAL CONSIDERATIONS

### V. ATTACHMENTS

**Attachment A:** METRO's Summary of the ADA/504 Review report's recommended actions; METRO's responses to the recommendations; the Transition Plan as adopted; and Status of METRO's implementation of the Plan

Recommendations	Responses	Transition Plan	December 2008 Review	
A. Public Facilities				
1. Update signage at entrances, except for Encinal facility.  METRO will implement the following:  1. At any inaccessible entrance a decal will direct user to accessible entrance; and  2. International symbol for accessibility will identify each accessible entrance.		Tasks Completed  1. Done-inaccessible entryways, direct users to accessible entrances; and  2. Done-all accessible entrances are identified with accessible decals.	Tasks completed	
B. MetroCenter (Pacific				
Station), opened 1984				
1. Update signage re: Service animals	METRO staff will update signage re service animals.	METRO staff is investigating service animal signage. Anticipate installation at all METRO facilities by June 2008.	Service Animal signage has been installed in all METRO Transit Centers. Tasks completed.	
2. Affix mats more firmly to the floor.	METRO staff determined that there was no practical way to secure mats safely.	Mats removed. Metal fiber mats (Pedimats) at each entryway were replaced.	Task completed; new recessed mats installed at METRO Transit Centers.	
3. Require vendors to maintain clear travel paths and access.	METRO staff will notify vendors of requirement and conduct inspections to insure compliance.	Letters of notification sent to vendors in April 2008. (See attached letter) First inspection scheduled for June 17, 2008.	Vendors are in compliance at inspection (inspected on 10/22/08 and 11/19/08)	
4. Improve color contrast for outside areas of travel.	Color demarcations and sidewalks and street areas have been identified as faded.	METRO staff will repaint outdoor area within 6 months of BOD's adoption of Transition Plan. Anticipated completion November 2008.	METRO staff repainted signage located in cement. On 11/19/08 met with Pat Piras re demarcation in cement. Piras approved results.	
5. Insure that protective tree grades are flush with walkways.	METRO staff agrees to implement plan of action to insure that grades do not become safety hazard.	METRO staff will implement maintenance inspection plan to determine if and when grates need to be corrected and/or replaced (See attached monthly facilities' inspection sheets).	In addition to regular maintenance of status of grates, facilities maintenance workers have done a lot of grading to level out surfaces at Pacific Station.	

	**************************************	1912-1112			
Recommendations	Responses	Transition Plan	December 2008 Review		
C. Capitola Mall Transit Center, leased since 1987					
1. Continue to work with Capitola Mall and public jurisdictions to improve and maintain safe access.	METRO staff appreciate the need to improve and maintain paths of travel for METRO passengers.	METRO staff will continue to work with the Mall and Public Jurisdictions to improve and maintain safe access.	Task continuing		
2. Consider reduced-glare materials for future shelter construction.	The most recently installed Bus Shelters have perforated backs and sides to reduce glare.	METRO staff will continue to use reduced glare materials on construction of bus shelters.	Tasks completed and will continue to construct shelter with reduced glare material.		
D. Watsonville Transit			The second secon		
Center, opened 1995  1. Working with City regarding safety and access of adjacent public areas.	METRO staff is scheduling a meeting with Pat Piras to identify the specific issues that need correcting.  METRO staff will also lower route information for better accessibility.	METRO staff will continue to work with the Mall and Public Jurisdictions to improve and maintain safe access.	Route information was relocated to an accessible level.		
2. Require vendors to maintain clear travel paths and access.	METRO staff will notify vendors of requirement and conduct inspections to insure compliance.	Letters of notification sent to vendors in April 2008. (Letter attached) First inspection scheduled for June 17, 2008.	Second Inspection conducted on 11/25/08. All in compliance		
3. Improve color contrast for outside areas of travel.	Color demarcations and sidewalks and street areas have been identified as faded.	METRO staff will repaint outdoor area within 6 months of BOD's adoption of Action Plan. Anticipated completion November 2008.	METRO staff repainted signage located in cement.		
4. Keep foliage trimmed to avoid obstructing route signage.	METRO staff will inspect premises to insure Center foliage is kept trimmed and does not create a problem of access.	METRO staff will institute regular maintenance program to insure that foliage remains trimmed to avoid obstruction of signage.	Landscaper contracted Maintenance on weekly basis. METRO does heavy maintenance including foliage trimming twice a year.		

Recommendations Responses Transition Plan December 2008 Review

E. Cavallaro Transit Center				
(Scotts Valley), opened 1998				
1. Monitor use and safety of parking spaces used by persons with disabilities.	METRO staff does not believe that the cited issue is a safety concern as the Center was designed and constructed to be in compliance with the ADA and California state laws. However, METRO staff will monitor use and safety of parking spaces used by persons with disabilities.	Transit Supervisors will monitor use and safety of parking spaces. Six months from BOD's adoption of transition plan; METRO staff will review these reports as well as bus operator occurrence reports to determine if there is a safety issue.	There have been no instances reported by Supervisors that a problem with parking or access for Persons with Disabilities has been an issue at the Cavallaro Transit Center. Review of the site for the time period mentioned has averaged 1-3 vehicles parked on average each weekday. There have been no Customer complaints or Operator Comment Sheets submitted identifying any issues or concerns.	
2. Repair accessible flush toilet.	METRO staff agreed that toilet needed to be repaired.	Item repaired in February 2008.	Task Completed.	
F. Administration Building	Estrabert Control			
(Encinal Street), leased since				
1999	Paragraphic de la company de la company La company de la company d			
relocate disabled parking need striping. closer to building entrance and		Owner has agreed to reseal and restripe parking lot and will relocate the correct disabled parking location at that time.	Entire parking lot resealed and re-striped. Disabled parking location corrected, October 2008.	
		Mats removed.	Task completed. New recessed mats installed.	

Recommendations Responses Transition Plan

### **December 2008 Review**

G. Current METRO Employee Facilities 1:				
1. Improve signage for disabled parking spaces.	METRO staff will review facilities and determine needs of each.	All new construction sites will be striped in accordance with federal and state law. Current facility will be striped within 6 months of adoption of transition plan.	Signs refreshed; Repainted all disabled parking spaces in all METRO facilities.	
2. Affix mats more firmly to the floor.	METRO staff determined that there was no practical way to secure mats safely.	Mats removed.	Task completed. New recessed mats also installed.	
3. Be attentive to potential needs for accessibility improvements to restrooms.	METRO staff will be attentive to necessary accessibility improvements.	METRO's new facility will be designed and maintained to meet or exceed all federal and state accessibility standards.	Task continuing.	
4. When "permanent rooms and spaces" are designated by signs, there should be equivalent Braille indications.	METRO staff is investigating issue.	Will incorporate into new construction as required by federal and state laws.	Task continuing.	
H. Administrative/ Operational Issues:				
1. Website should be updated for content, with improved contrasts and clarity of topics.	METRO staff agrees with recommendation.	Funds have been budgeted to update website in FY/09. RFP will be issued in FY08 & contract will be let & work completed in FY09.  Maintenance & oversight will be assigned to IT Department.	The RFP has been revised and District Buyer has been directed to proceed with posting of the RFP for the website. District Buyer reported on 12/02/08 that the RFP will be released no later than 12/03/08.	

<sup>&</sup>lt;sup>1</sup> Minor Maintenance Facility (Golf Club Drive), Operations Building, Fleet Maintenance Facility, ParaCruz Office, Fleet Administration & Office (Vernon St.).

Recommendations	Responses	Transition Plan	December 2008 Review
2. METRO's "ADA Coordinator" should be more clearly identified for public communication and/or correspondence.	METRO's ADA/504 Regulation identifies the General Manager or his/her designee as ADA Coordinator.	General Manager will issue annual notice to employees, the public & relevant agencies that will identify ADA Coordinator.	Notification Letters were sent to the Unions, METRO staff and to the public for METRO's website identifying Les White, General Manager as METRO's ADA Coordinator (See attached letter)
3. Human Resources "Job Descriptions" for operators (both fixed route and paratransit) should specify minimum qualifications required to assist passengers in mobility devices (e.g., currently 600 pounds when occupied, possibly more in the future), including up vehicle ramps in areas without curbs.	METRO staff agrees with recommendation.	Due to the press of business, modifications to job descriptions will take a lengthy period of time particularly as it requires meet & confer Requirements with UTU. Anticipate completion June 2009.	Review July 2009
4. More information should be more readily available on how/where to obtain large-print or Braille versions of <i>Headways</i> .	METRO staff is investigating manner and means to accomplish this goal.	Information is in Headways re how to obtain large print Headways and there is a posting at Information Booth on how to obtain large print <u>Headways</u> .	Task completed.

Recommendations	Responses	Transition Plan	December 2008 Review
5. Provisions should be added to lease contracts at transit centers (e.g., vendors & kiosk) that require "accessible path of	Currently leases require Tenant compliance with federal, state & local laws. Legal Department will review the Lease Agreement	Action has been taken. The Lease Agreements now contain the following language:	Tasks completed.
travel" and reasonable accommodation for their customers (under Title III) to vendors' responsibilities.	language and make necessary provisions to include the language recommended.	20.1.17 Requirement of Vendors to provide accessible path of travel and reasonable accommodation for customers	
		Tenant shall comply with the provisions of Title III of the Americans With Disabilities Act, pertaining to the requirement of providing an "accessible path of travel" and "reasonable accommodations" to their customers.

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19, 2008

TO:

Board of Directors

FROM:

Angela Aitken, Finance Manager

**SUBJECT:** 

CONSIDERATION OF RESOLUTION APPROVING FY09 AND FY10

REVISED BUDGET

### I. RECOMMENDED ACTION

That the Board of Directors adopt a resolution approving the FY09 and FY10 Revised Budget as presented.

### II. SUMMARY OF ISSUES

- The FY09 and FY10 Revised Budget is a revised two (2) year budget for FY09 and FY10 that provides for the continuation of the current level of transit service to the public
- A total of 330.25 full-time employee equivalents are funded in the FY09 budget compared with 326.75 for FY08
- The proposed two-year **FY09** and **FY10** Revised Operating Budget Total Revenues are \$38,620,890 and \$40,816,533 respectively. The corresponding Total Expenses are \$39,544,480 and \$40,816,533 respectively. This two-year budget is balanced over a two (2) year period of time with a deficit in FY09 of \$923,590 carried over to FY10 and then balanced in FY10 with \$5,442,604 of Operating Reserves
- The modifications to the **Operating budget** will result in \$852K less revenue in FY09 and \$1,440K in FY10 than previously expected in June of 2008; totaling to a \$2.293K loss of revenue over the FY09 & FY10 budget time frame. An additional \$556K in operating expense is expected to be incurred over the same two year period to cover increased costs of our aging vehicle fleet, contractual leave payouts, ADA compliance costs, facility maintenance costs, and hazmat expenses.
- Major Operating Revenue assumptions in the FY09 and FY10 Revised Budget include:
  - .7% increase in Passenger Fares (fare box revenue) for FY09 and 1% in FY10
  - 9.6% increase in FY09 and 2% increase in FY10 for Special Transit Fares such as the UCSC and Cabrillo contracts
  - 23.4% increase in Paratransit Fares for FY09 and 2.4% increase in FY10 due to rides we are now required to provide for dialysis patients
  - A significant decrease in Interest Income under the actual FY08 level
  - 2.8% decrease in Sales Tax revenue under actual FY08 receipts and a 2% increase in FY10

- The projected amount for the Transportation Development Act (TDA) allocation reflects a 10% decrease in FY09 under the current year allocation from the Santa Cruz County Regional Transportation Commission (SCCRTC). This represents the FY09 allocation proposed by the SCCRTC staff. A 2% increase is projected in FY10 similar to the Sales Tax revenue.
- Major balancing actions for **Operating Expenses** in the FY09 and FY10 Revised Operating Budget include:
  - The full use of Federal Operating Assistance utilized to the maximum extent in both years; as has been done in previous budgets
  - The addition of three (3) Full time Equivalents (FTE) in Dept 3300 (Bus Operators) to sustain current level of service due to the amount of leaves employees are allowed to take by law
  - The use of Carryovers \$2,951,178 in FY09; (\$923,590) in FY10
  - Eliminate funding for two (2) vacant positions Vehicle Service Worker I and FM Lead Mechanic
  - Projecting retirements and lower cost replacements
    - Assistant General Manager budgeted in FY09 for first six (6) months; not funded in last six (6) months of FY09 and all of FY10
    - Current Maintenance Manager budgeted in FY09 for first six (6) months; new Maintenance Manager funded at lower level in last six (6) months of FY09 and all of FY10
    - Twelve (12) Bus Operators to retire after 6 months of FY09; another twelve (12) to retire after six (6) months of FY10; new Bus Operators funded at a lower level, in the corresponding months of FY09 and FY10
  - Transfers from reserves specifically for Retiree Payouts are \$267,960 in FY09 and \$185,663 in FY10.
  - \$150,000 transferred from the Insurance Reserves for Legal Settlements in FY09 and FY10, as has been done in previous operating budgets
  - Transfer \$5,442,604 from Operating Reserves to balance the two-year revised budget in FY10
- The FY09 Revised **Capital Budget** totals \$30,195,511, requiring \$10,155,134 from District Reserves and \$16,882,034 from State Transit Assistance (STA) and other funding to procure local capital projects

December 19, 2008 Board of Directors Page 3

### III. DISCUSSION

The FY09 and FY10 Revised Budget is a revised two (2) year budget for FY09 and FY10 that provides for the continuation of the current level of transit service to the public. A total of 330.75 full-time employee equivalents are funded in the FY09 budget compared with 326.75 for FY08.

Due to significant changes in the Final FY09 and FY10 Budget adopted in June of 2008, a FY09 and FY10 Revised Budget is being presented for the Board of Directors to adopt.

### A. Operating Revenues

The proposed two-year **FY09** and **FY10** Revised Operating Budget Total Revenues are \$38,620,890 and \$40,816,533 respectively. The corresponding Total Expenses are \$39,544,480 and \$40,816,533 respectively. This two-year budget is balanced over a two (2) year period of time with a deficit in FY09 of \$923,590 carried over to FY10 and then balanced in FY10 with \$5,442,604 of Operating Reserves.

The modifications to the **Operating budget** will result in \$852K less revenue in FY09 and \$1,440K in FY10 than previously expected in June of 2008; totaling to a \$2.293K loss of revenue over the FY09 & FY10 budget time frame. An additional \$556K in operating expense is expected to be incurred over the same two year period to cover increased costs of our aging vehicle fleet, contractual leave payouts, ADA compliance costs, facility maintenance costs, and hazmat expenses.

### Fare Revenue

- Accounts have been projected based on data through October 2008. A .7% increase in **Passenger Fares** (fare box revenue) is projected for FY09 and a 1% increase in FY10.
- Increases of 9.6% in FY09 and 2% in FY10 are projected for **Special Transit Fares** such as the UCSC and Cabrillo contracts. These contracts have built in CPI adjustments.

Paratransit Fares account has been increased by the amount of fares estimated from the dialysis rides we will now be required to perform. A 23.4% increase is projected for FY09 and 2.4% in FY10.

**Interest Income** is projected to have a significant decrease under the actual FY08 level due to the principal being spent on MetroBase and a lower than budgeted interest rate projected from the County.

Sales Tax Revenues have been projected at a 2.8% decrease under actual FY08 receipts and a 2% increase in FY10. These projections are based on actual sales tax receipts thru November 2008, projections from the report from the State Board of Equalization, and many other economic indicators from local County agencies, surrounding Cities and a neighboring transit agency. Staff projects that during FY10, the economy will start to recover.

December 19, 2008 Board of Directors Page 4

**TDA Funding** is budgeted in the amount of \$5,679,337 in FY09; a 10% decrease from the actual FY08 allocation amount from the SCCRTC. A 2% increase is projected in FY10 similar to the Sales Tax revenue.

The fourth and fifth installments for repayment of the \$350,000 one-time advance of the **FTA**Operating Assistance drawn in FY05 for Paratransit start-up costs is shown as a reduction in FTA Sec 5307 - Operating Assistance in the amount of \$70,000 each year. This is being paid back over five years with our final payment being in FY10.

### Transfers include:

- The use of Carryovers \$2,951,178 in FY09; (\$923,590) in FY10
- \$150,000 transferred from the Insurance Reserves for Legal Settlements in FY09 and FY10, as has been done in previous operating budgets
- \$5,442,604 from Operating Reserves to balance the two-year revised budget in FY10
- Transfers from reserves specifically for Retiree Payouts of \$267,960 in FY09 and \$185,663 in FY10.

A Transfer from Capital Reserves of \$115,830 in FY09 and \$119,305 in FY10 is being shown to cover the Project Manager costs (salary and benefits). The expenses of the position will be capitalized as part of the grant-funded project. The Board of Directors approved the Project Manager position for the MetroBase project and these expenses are included in the operating budget for payroll purposes.

### **B.** Operating Expenses

**Operating Expenses** are projected to be above FY08 actuals by 13.2% in FY09 and 3.2% in FY10. The major increases are due to increases included in the current union contracts, increased contractual leave payouts, increased overtime costs and retirement payout costs as well as fuel and maintenance expenses for FY09 and FY10.

The Revised Operating Budget amounts for Casualty and Liability Insurance are estimates only.

Significant Departmental Expense changes include:

- Decrease of 9.8% (\$141,901) in Admin due to movement of negotiation expenses to HR, movement of lease, utility and telecommunication expenses to Facilities Maint, movement of four (4) positions to Finance (Legislative Grants Analyst, Intern, Transit Planer, and Transit Surveyor) and the elimination of the Assistant General Manager position after the first six (6) months of FY09
- Increase of 40.9% (\$555,114) in Finance is due to the movement of seven (7) positions and related expenses from Admin (4), Fleet (2), and Operations (1) departments

- Increase of 16.7% (\$102,318) in HR is due to negotiation expenses being moved from Admin to HR, increased costs related to position advertising, and increased District wide training
- Increase of 80.6% (\$1,166,417) in Facilities Maint is due to movement of most utilities and leases from individual departments to the Facilities Maint Dept to consolidate these expenses in one department for better tracking purposes
- Increase of 22% (\$792,749) in Paratransit due to additional dialysis rides we are now required to perform, increased fuel costs and vehicle maintenance expenses we are incurring due to the advanced age of our Paratransit fleet
- Increase of 4.8% (\$380,363) in Fleet Maintenance partially due to increased fuel costs and maintenance expenses on our vehicles that are no longer under warranty. This variance is artificially low due to two (2) positions being moved from Fleet to Finance (Purchasing Agent and Sr. Accounting Technician)

Major balancing actions for **Operating Expenses** in the FY09 and FY10 Revised Operating Budget include:

- The full use of Federal Operating Assistance utilized to the maximum extent in both years; as has been done in previous budgets
- The addition of three (3) Full time Equivalents (FTE) in Dept 3300 (Bus Operators) to sustain current level of service due to the amount of leaves employees are allowed to take by law
- The use of Carryovers \$2,951,178 in FY09; (\$923,590) in FY10
- Eliminate funding for two (2) vacant positions Vehicle Service Worker I and FM Lead Mechanic
- Projecting retirements and lower cost replacements:
  - o Assistant General Manager budgeted in FY09 for first six (6) months; not funded in last six (6) months of FY09 and all of FY10
  - Current Maintenance Manager budgeted in FY09 for first six (6) months;
     new Maintenance Manager funded at lower level last part of FY09 and all of FY10
  - o Twelve (12) Bus Operators to retire after 6 months of FY09; another twelve (12) to retire after six (6) months of FY10; new Bus Operators funded at a lower level in the corresponding months of FY09 and FY10

The budget also includes contractual wage and/or benefit adjustments for employees represented by UTU Local 23 and SEIU Local 521, as well as adjustments in accordance with the management compensation plan.

December 19, 2008 Board of Directors Page 6

### C. Capital Budget

The FY09 and FY10 revised **Capital Budget** totals \$30,195,511, requiring \$10,155,134 from District Reserves. The District share comes from reserves and State Transit Assistance (STA) funding. The largest project in the adopted capital improvement program is MetroBase. Projects, which were initiated in previous fiscal years but not yet completed, are designated as carryover projects.

### IV. FINANCIAL CONSIDERATIONS

The FY09 and FY10 Revised Operating Budget, as presented, is balanced over the two-year period of time it covers through the increased use of reserves and carryover funding due to projected operating revenues not covering projected operating expenses by \$5,442,604.

In June 2008, the reserve amount we were authorized to use to balance the FY09 & FY10 budget was \$2,593,413. We will come back to the Board in January 2009 with a staff report detailing how we propose to handle this \$5,442,604 deficit.

The FY09 Revised Capital Budget requires \$16,049,100 in District funding which is available from District Capital Reserves and STA funding.

#### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19, 2008

TO:

**Board of Directors** 

FROM:

Leslie R. White, General Manager

**SUBJECT:** 

CONSIDERATION OF APPROVAL OF 2009 STATE LEGISLATIVE

ADVOCACY PROGRAM

#### I. RECOMMENDED ACTION

That the Board of Directors adopt the proposed METRO 2009 State Legislative Advocacy Program attached to this Staff Report.

#### II. SUMMARY OF ISSUES

- Elected officials at the State level continue to actively support the goals established by the METRO Board of Directors when the legislative program is presented to them early in the legislative process.
- On November 7, 2006 the voters of California approved, among other measures, Propositions 1A, 1B, and 1C. These measures provide protection for transportation funds, and authorize the sale of general obligation bonds, over the next 10 years, to provide funds for transportation investments.
- The availability of bond funds for public transit projects will be dependent upon the state budget process. In 2007 the State Legislature released \$600 million in bond funds for the Public Transportation Modernization Improvement and Service Enhancement Fund (PTMISEA). The PTMISEA program is being administered by the Mass Transit Division of Caltrans. The State Controller's Office has estimated that METRO will receive approximately \$27 million when all of the PTMISEA bonds are sold. METRO has applied for the full amount of the PTMISEA allocation. In 2008 the State Legislature released \$350 million in PTMISEA funds.
- In order for METRO to proceed to implement the Operations Building portion of the MetroBase Project it will be necessary for the bonds for transit eligible projects to continue to be sold on a predictable basis, and for the Santa Cruz County Regional Transportation Commission (SCCRTC) to continue to pass funds under the State Transit Assistance Formula (STA) and the PTMISEA through to METRO.
- METRO will continue to incur additional costs to provide the mandated ADA complimentary paratransit service. The state has yet to provide specific funding programs to address this need.

- The reliance of UCSC, Cabrillo College, and some K-12 systems on METRO services makes it important to advocate for exploration of "cross function" funding opportunities.
- The 2007 California Legislature diverted \$1.259 billion in Public Transportation Account funds to the State General Fund. In 2008 the State Legislature diverted \$1.667 billion in PTA funds to the General Fund. Currently the Governor is proposing to eliminate the remaining \$306 million in STA funds and to discontinue the program permanently. The impact of the diversion on METRO is a loss of approximately \$6 million in capital funds over the past two years and approximately \$45 million in funds over the next five years. The California Transit Association has filed a lawsuit challenging the legality of the diversion of PTA funds. Staff recommends that legislation be introduced in the 2009 Legislative Session that would repeal the on-going diversion of PTA funds to the General Fund.

#### III. DISCUSSION

The 2009 California State Legislature will convene this month to consider legislative actions for the coming year. On November 7, 2006 the voters of California approved Propositions 1A, 1B, and 1C. These measures provided protection for transportation funds, and authorized the sale of general obligation bonds, over the next 10 years, to provide funds for transportation investments. The availability of bond funds for public transit projects will be dependent upon the state budget process. In 2007 the State Legislature released \$600 million in bond funds for the Public Transportation Modernization Improvement and Service Enhancement Fund (PTMISEA). The PTMISEA program is being administered by the Mass Transit Division of Caltrans. The State Controller's Office has estimated that METRO will receive approximately \$27 million when all of the PTMISEA bonds are sold. METRO has applied for the full amount of the PTMISEA allocation. In 2008 the State Legislature released \$350 million in PTMISEA funds. In order for METRO to proceed to implement the Operations Building portion of the MetroBase Project it will be necessary for the bonds for transit eligible projects to continue to be sold on a predictable basis, and for the Santa Cruz County Regional Transportation Commission (SCCRTC) to continue to pass funds under the State Transit Assistance Formula (STA) and the PTMISEA through to METRO.

It is likely that future years will see cost increases in the area of ADA-Mandated complimentary paratransit service. Currently, the State does not have a funding program to assist transit agencies in addressing this need. Staff recommends that METRO advocate for State consideration of operating and capital funding measures that would support the complementary paratransit needs.

In prior years METRO, Caltrans, AMBAG, the RTPO's and other transit agencies in the under 200,000 in population urbanized areas were able to collaborate successfully and remove obstacles which could have prevented draw down of Section 5309 earmarked discretionary funds from the Federal Transit Administration. In 2009, it will again be necessary for transit agencies in areas under 200,000 in population to ensure that all Section 5307 formula funds are programmed. This is necessary to achieve the ability to continue to draw down discretionary Section 5309 earmarks. The programming responsibility for the Section 5307 funds that are

received by METRO is carried out by AMBAG. Where transit agencies have allocated funds that they will not be able to program for projects in a timely manner, Staff recommends that METRO advocate that the Governor's Office, through Caltrans, coordinate with the MPOs and the Regional Transportation Planning Agencies to transfer these funds to other transit agencies that are able to program the funds to avoid having these allocations lapse back to the Federal Treasury, and to avoid any repetition of FTA discretionary fund draw down embargo actions as have occurred in past years.

In prior years, METRO has explored the possibility of acquiring subpoena authority so that the Office of District Counsel can ensure witness participation. Staff recommends that the 2008 Legislative Program once again address this issue and explore the possibility of initiating legislation which would grant the subpoena authority to METRO.

Service provided by METRO is relied upon by UCSC, Cabrillo College, and some of the K-12 school districts in Santa Cruz County. Currently, there is no mechanism or incentive at the State level for coordination of funding for transportation between the education functions and the transportation functions. Staff recommends that METRO advocate for the exploration of "cross function" funding opportunities.

The 2007 California Legislature diverted \$1.259 billion in Public Transportation Account funds to the State General Fund. In 2008 the State Legislature diverted \$1.667 billion in PTA funds to the General Fund. Currently the Governor is proposing to eliminate the remaining \$306 million in STA funds and to discontinue the program permanently. The impact of the diversion on METRO is a loss of approximately \$6 million in capital funds over the past two years and potentially \$45 million in funds over the next five years. The California Transit Association has filed a lawsuit challenging the legality of the diversion of PTA funds. Staff recommends that legislation be introduced in the 2009 Legislative Session that would repeal the on-going diversion of PTA funds to the General Fund.

The specific legislative goals recommended by staff are attached to this Staff Report. Staff is recommending that Joshua Shaw continue to serve as a Legislative Advocate for METRO under a separate contract

#### IV. FINANCIAL CONSIDERATIONS

Funds for the State Legislative Advocacy activities, including travel to Sacramento and the contract with Joshua W. Shaw, are included in the adopted 2008/2009 METRO Operating Budget.

#### V. ATTACHMENTS

**Attachment A:** Proposed 2009 Santa Cruz Metropolitan Transit District Legislative Program.

#### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT 2009 STATE LEGISLATIVE PROGRAM

#### **State Goals:**

- 1. Support legislation and actions necessary to protect existing funding sources and funding levels for transit operating assistance and capital assistance.
- 2. Support the introduction and passage of legislation designed to enact additional sources of transit operating and capital assistance.
- 3. Support efforts to insure that Federal Section 5307 formula funds in the Governor's apportionment (administered by AMBAG) are programmed statewide to the maximum extent possible to insure that SCMTD can access Section 5309 Federal discretionary earmarks and to insure that no funds lapse at the end of the SAFETEA-LU authorization.
- 4. Support efforts to obtain operating and capital funds to meet the increasing service requirements of ADA Para transit.
- 5. Explore the possibility of using state education funds for the development, construction, and operation of off-campus park and ride facilities as well as public transit services at campuses in the University of California system.
- **6.** Explore the possibility of requesting legislation to grant the SCMTD the authority to issue subpoenas.
- 7. Support efforts to improve communication and funding for public schools (K-12) and community college/university transportation needs.
- 8. Prepare and implement a county-wide public awareness program to inform the public of the impacts of lowered or cancelled state funding on METRO service and projects. Involve all stakeholders in the design and implementation of the program. Encourage communication of concerns to members of the State Legislature with emphasis on those individuals representing Santa Cruz County.
- 9. Support necessary actions to be taken by the Legislature, through the FY 2010 Budget process, that will ensure that the state provides transit-eligible Proposition 1B and 1C funds on a timely and equitable basis, and that the sale of the bonds authorized by the voters will continue to be sold in a manner that will support the expenditures.
- 10. Support legislation and litigation that will restore the Public Transportation Account funds that were diverted to the State General Fund in 2007and 2008.
- 11. Support legislation that will prevent Public Transportation Account funds from being diverted to other purposes in the future.

### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19, 2008

TO:

**Board of Directors** 

FROM:

Leslie R. White, General Manager

SUBJECT:

CONSIDERATION OF APPROVAL OF THE 2009 FEDERAL

LEGISLATIVE ADVOCACY PROGRAM

#### I. RECOMMENDED ACTION

That the Board of Directors adopt the proposed METRO 2009 Federal Legislative Advocacy Program attached to this staff report.

#### II. SUMMARY OF ISSUES

- Elected officials at the federal level support the goals established by the METRO Board of Directors when the Legislative Program is presented to them early in the legislative process.
- In 2009, the first session of the 111<sup>th</sup> Congress will appropriate transit funds for Federal FY 2010. The FY 2010 Transportation Appropriations Bill will require an Authorization action in order to become law as it will occur after the expiration of the current SAFETEA-LU Authorization Bill.
- In prior years, there have been numerous efforts to limit funding for public transit service in California. Staff recommends that METRO representatives again oppose any action that singles out specific states for lower transit funding levels or places a minimum allocation level to all states which would redirect federal funds away from populous states like California.
- As costs related to federally mandated complimentary paratransit continue to rise, staff recommends that METRO continue to advocate for funding at the federal level to assist in offsetting these expenses.
- Transit financing needs will continue to increase in future years. In order maximize the federal capital and operating formula find that we receive Staff recommends that METRO advocate for the transit program funding levels to increase from the \$8.2 billion appropriated in 2006 to a level beyond the last the full authorized level of \$10.3 billion in 2009 to a new level of \$11.5 billion in 2010..
- Earmarked Discretionary Capital funding will be needed to replace vans used for ParaCruz Service. Staff recommends that METRO advocate for an earmark of \$840,000 to be included in the FY2010 Transportation Appropriations Bill.
- METRO has developed a proposal for the acquisition and implementation of a fare Smart Card system. The cost to acquire and implement a joint Smart Card program is anticipated to be \$2,300,000. Staff recommends that METRO request the earmark of

Federal funds in the amount of \$1.84 million for METRO for the acquisition and implementation of a fare Smart Card system.

- Staff further recommends that METRO urge Members of Congress to complete action and enact a FY 2010 Transportation Appropriations Bill prior to the commencement of the fiscal year on October 1, 2009 so that funds will be available for use for van replacement and the Smart Card system at the earliest possible time.
- The current SAFETEA-LU Authorization Bill will expire on September 30, 2009. Staff has participated actively with the American Public Transportation Association Authorization Task Force to develop recommendations (attachment B) for a new Authorization Bill. Staff recommends that METRO urge Members of Congress to enact a new Authorization Bill prior to September 30, 2009 that embodies the recommendations developed by the APTA Authorization Task Force.
- It is anticipated that the 111<sup>th</sup> Congress will develop a new Economic Stimulus Package to send to the President. Staff recommends that METRO advocate for the inclusion of transit capital and operating projects in any stimulus package that is developed.

#### III. DISCUSSION

In 2009, Congress will appropriate funds for federal FY 2010. The federal formula funds that METRO receives to offset operating and capital expenses are derived from the annual appropriations bill. The FY 2010 Transportation Appropriations Bill will require an Authorization action in order to become law as it will occur after the expiration of the current SAFETEA-LU Authorization Bill.

In prior years, under Republican leadership, the transportation appropriations process has resulted in proposals being developed which would limit funding for California transit systems. Staff recommends that the 2009 Legislative Program include a provision that METRO continue to vigorously resist efforts to single out specific states for lower transit funding or places a minimum allocation level to all states which would redirect funds away from more populous states like California.

It is likely that federally mandated ADA Paratransit costs will increase in future years. Staff recommends that METRO advocate for supplemental federal capital and operating funds to assist in supporting the costs of the ADA-mandated complimentary Paratransit.

The current SAFETEA-LU Authorization Bill will expire on September 30, 2009. Staff has participated actively with the American Public Transportation Association Authorization Task Force to develop recommendations (attachment B) for a new Authorization Bill. Staff recommends that METRO urge Members of Congress to enact a new Authorization Bill prior to

9.2

September 30, 2009 that embodies the recommendations developed by the APTA Authorization Task Force.

While there has been continuing discussion of the process of earmarking funds in appropriations bills at the federal level, it is likely that the Section 5309 Discretionary Bus Program funds will continue to be delivered to transit systems on an earmarked project basis in FY 2010. Earmarked Discretionary Capital funding will be needed to replace vans used for ParaCruz Service. Staff recommends that METRO advocate for an earmark of \$840,000 to be included in the FY 2010 Transportation Appropriations Bill. METRO has developed a proposal for the acquisition and implementation of a fare Smart Card system. The cost to acquire and implement a joint Smart Card program is anticipated to be \$2,300,000. Staff recommends that METRO request the earmark of Federal funds in the amount of \$1.84 million for METRO for the acquisition and implementation of a fare Smart Card system.

Staff recommends that METRO urge Members of Congress to complete action and enact a FY 2010 Transportation Appropriations Bill prior to the commencement of the federal fiscal year on October 1, 2009 so that funds will be available for use for van replacement and for the implementation of the Smart Card system at the earliest possible time. Staff recommends that METRO request that Representatives Farr and Eshoo, as well as Senators Feinstein and Boxer, support the dedication of \$840,000 in Section 5309 bus funds for replacement vans for the ParaCruz service and the earmark of Federal funds in the amount of \$1.84 million for METRO for the acquisition and implementation of a fare Smart Card system.

It is anticipated that the 111<sup>th</sup> Congress will develop a new Economic Stimulus Package to send to the President. Staff recommends that METRO advocate for the inclusion of transit capital and operating projects in any stimulus package that is developed.

In order to effectively advocate for the goals contained in the proposed 2009 Federal Legislative Program, it will take the concerted efforts of members of the Board of Directors, staff, other community leaders and citizens to communicate our needs to our members of Congress as well as the continued efforts of Carolyn Chaney and Associates in Washington DC.

#### IV. FINANCIAL CONSIDERATIONS

Funding necessary for travel to Washington, DC and other APTA Legislative Committee meetings is included in the 2008/2009 METRO operating budget. Additionally, funds necessary to support the services of contracted legislative advocates are included in the METRO budget.

Law

#### SANTA CRUZ METROPOLITAN TRANSIT DISTRICT 2009 FEDERAL LEGISLATIVE PROGRAM

#### **Federal Goals:**

- 1. Advocate for the a new Authorization Bill to replace the Safe, Accountable, Flexible, Efficient, Transportation Equity Act- A Legacy for Users (SAFETEA-LU) with the transit program funding levels to increase from the \$8.2 billion appropriated in 2006 to a level beyond the last the full authorized level of \$10.3 billion in 2009 to a new level of \$11.5 billion in 2010. Resist efforts to single out specific states for lower transit funding levels. Urge Members of Congress to enact a new Authorization Bill prior to September 30, 2009 that embodies the recommendations developed by the APTA Authorization Task Force.
- 2. Support efforts to obtain funding for operating and capital costs to meet the increasing service requirements of ADA Paratransit (ParaCruz).
- 3. Advocate for and achieve an Earmark in the Section 5309 Discretionary Bus Funding Program of the 2010 Transportation Appropriations Bill of \$840,000 for the replacement of 12 paratransit vans.
- 4. Advocate for and achieve an earmark of Federal funds in the amount of \$1.84 million for METRO for the acquisition and implementation of a fare Smart Card system that would allow riders to use a wider variety of fare products designed to achieve a more economically equitable fare collection system.
- 5. Urge Members of Congress to complete action and enact a FY 2010 Transportation Appropriations Bill prior to the commencement of the fiscal year on October 1, 2009 so that funds will be available for use for van replacement and the Smart Card system at the earliest possible time.
- 6. Advocate for the inclusion of transit capital and operating projects in any stimulus package that is developed.

#### **DRAFT/September 2008**

## STATEMENT OF NATIONAL PURPOSE A Vision for Public Transportation

We live in an age disturbed, confused, bewildered, afraid of its own forces, in search not merely of its road but even of its direction. There are many voices of counsel, but few voices of vision . . .

Woodrow Wilson, Princeton University, 1907

APTA's vision is that America will lead the world in supporting and sustaining a pre-eminent transportation system. To that end, the federal government must continue to play its key investment role in our nation's transportation infrastructure – as it has done when needed since the early days of the nation.

APTA's TransitVision 2050 initiative foresees current trends leading to an extensive multimodal transportation system. Over time, integration of transportation policy with energy and environmental policy has caused transportation decisions to become more focused on outcomes such as sustainability, quality of life, and long-term economic health and competitiveness.

On the national level, public transportation supports America's goals and policies, including spurring economic activity, enhancing competitiveness in the global marketplace, reducing dependence on foreign oil, reducing climate-changing greenhouse gases, and providing critical responses in emergencies. On an individual level, public transportation saves money, reduces the carbon footprint of households, and provides people with choices, freedom, and opportunities.

Authorization of federal surface transportation programs should be directed by two overarching issues, the federal role and purpose in transportation and a vision that can direct transportation policy for the coming decades. For its part, public transportation needs to be viewed and understood based on its contribution to meeting these stated national goals. For the federal purpose we need look no further than our Constitution. Among its fundamental duties the federal government is directed to promote both commerce and the common good of its residents. These same two purposes are the core functions of our surface transportation system.

#### CHOICE, FREEDOM, MOBILITY OPTIONS AND INDEPENDENCE

Americans make their travel choices on the basis of smart and logical decision-making. In places where accessible, high quality public transportation services exist, a high percentage of the traveling public uses the service. When it doesn't, they don't.

In 2007, people took more than 10 billion trips on public transportation, the highest ridership level in 50 years. Much of this growth is attributable to the transportation infrastructure investments provided in the three most recent federal surface transportation bills, ISTEA (1991), TEA 21 (1998), and SAFETEA-LU (2005).

But many Americans do not have adequate transportation choices. A recent survey conducted by the U.S. Department of Housing and Urban Development and the U.S. Census Bureau, found that only 54 percent of American households have access to public transportation of any kind.

While America continues to boast the world's best overall transportation system, the system is showing signs of severe stress, so making investments in our nation's physical infrastructure will be critical to our ability to sustain strong economic growth in future years.

To ensure that Americans have the public transportation choices they want – and need – and to ensure that they can access the range of educational, vocational, social, and recreational opportunities awaiting them, a national transportation policy for the future must recognize several irrefutable facts. Public transportation benefits everyone- both riders and non riders.

Public transportation is an essential partner in our national strategy for energy independence and climate change. New research calculates that current levels of public transportation service reduce petroleum consumption directly and indirectly by 4.2 billion gallons of gasoline each year. This is the equivalent of 900,000 automobile fill-ups each day. Currently, there are more than 6,400 providers of public and community transportation offering Americans freedom, opportunity, and the choice to travel by means other than a car, but most only offer minimal service.

Public transportation contributes to the growth of a strong economy. It is estimated that every \$10 million in capital investment in public transportation yields \$30 million in increased business sales, and that every \$10 million in operating investment in public transportation yields \$32 million in increased business sales. Further, every \$1 taxpayers invest in public transportation generates \$6 in economic returns.

**Public transportation dramatically reduces traffic congestion.** Simply put, congestion results in lost time and wasted fuel. According to a 2007 Texas Transportation Institute report, congestion costs America \$78 billion in lost time and productivity. Public transportation saved 541 million hours in travel time and 340 million gallons of fuel. Without public transportation, congestion costs would have been an additional \$10.2 billion.

Public transportation should be part of our central strategy for ensuring clean air and the health of our residents. Reduced air pollutants and improved personal health and fitness are core American goals – and public transportation provides key contributions to making these goals a reality. A new APTA study prepared by Science Applications International Corporation (SAIC) found, for example, that it takes just one commuter switching from daily driving to using public transportation to reduce the household carbon footprint by 10 percent. If that household driver gives up the second car and switches to public transportation for all solo travel, the household can reduce its carbon emissions up to 30 percent, which is a greater reduction than if the household gave up use of all electricity.

Public transportation delivers essential health and human services to people from all walks of life. Public transportation helps older Americans and persons with disabilities improve mobility, plus it provides lifelines to public transportation-dependent persons in urban, suburban, and rural areas. In many areas there is a need for more service. African-Americans, Latinos, Asian-Americans, and households with no cars are more heavily affected by inadequate transportation options than other groups. Public transportation service is available to only 54 percent of American households.

**Public transportation provides mobility for our aging society.** Over the next two decades, America's baby boomers will reach retirement age, with the U.S. Census Bureau projecting the number of Americans age 65 or older to double to more than 70 million by 2030. In a 2005 White House

Conference on Aging, mobility for older Americans was ranked the third most important issue on a 73item list – ahead of Medicare reform. While the dimensions of this shift have been widely discussed, America remains ill-prepared to address the mobility needs of older Americans.

More than 50 percent of non-drivers age 65 and older stay home on any given day partially because they lack public transportation options. Older non-drivers have a decreased ability to participate in the community and the economy, making 15 percent fewer trips to the doctor, 59 percent fewer shopping trips and restaurant visits, and 65 percent fewer trips for social, family and religious activities. Public transportation can enable individuals to age in place, thus allowing them the prolonged fulfillment and satisfaction of living in their own homes while at the same time requiring only one-fourth as many resources than if they were living in an institution.

Public transportation investments are critical to America's homeland security and civil defense. The interstate highway system was begun by President Eisenhower in 1956 in part as a national defense program. Today, public transportation systems often provide an important way to avoid or flee from potentially catastrophic events. Public transportation regularly provides critical support to first responders by delivering emergency equipment and supplies, ferrying emergency response personnel, and controlling access to and from disaster sites. A prime example of this occurred on September 11, 2001, when public transportation in New York City, New Jersey, and Washington, D.C. helped evacuate residents to safety.

**Public transportation promotes sustainability.** Public transportation promotes the practices and principles of livable communities and sustainable development. As our urban areas continue to grow it is important to realize that public transportation acts as a catalyst for promoting compact, connected and mixed-use development. These things make the provision of all transportation, and public services and facilities more efficient and effective while simultaneously helping achieve energy and environmental goals. At the household level use of public transportation is one of the most significant things individuals can do to reduce their own carbon footprint.

#### **AMERICA'S TRANSPORTATION FUTURE**

America's population is growing at an unprecedented rate. A 2006 cover story in USA Today that asks: "Where will everybody live?" noted that the U.S. added 100 million people in the past 39 years, and by 2040, will add another 100 million, producing a population total of over 400 million.

If we Americans are to have true transportation choices that accommodate this extraordinary growth we must design a long term investment and policy strategy to provide transportation choices. APTA's vision? Nothing less than this:

"In 2050 America's energy efficient, multi-modal, environmentally sustainable transportation system powers the greatest nation on earth."

To achieve this goal, partnerships are critical. In conjunction with revenues from passenger fares, public transportation programs are funded by federal, state and local governments, partnerships that have successfully helped expand public transportation and make a positive difference throughout the country.

Public policy needs to fully recognize the benefits of public transportation – so that all Americans can have the access, mobility, and quality of life public transportation provides in the years ahead.

As we have seen, among its many benefits, public transportation:

- Reduces our dependence on insecure and expensive foreign oil public transportation use saves the equivalent of 900,000 automobile fill-ups each day.
- Improves public health and helps the environment public transportation fosters a more active lifestyle, encouraging more people to walk, bike, and jog to public transportation stops.
- Promotes affordable travel a two-adult household that gives up 1 car to utilize public transportation saves \$9,596.
- Improves safety using public transportation is 25 times safer than travelling by car.

#### **INVESTMENT STRATEGIES**

America must expand the number of communities with light rail and streetcar service, commuter rail, bus rapid transit, fixed route bus service, and paratransit services. We can improve the quality of rail systems struggling with system delay due to aging infrastructure and heavy passenger loads, and we can enhance the quality of bus systems in numerous communities. We can ensure that people in rural communities receive public transportation service, service that often serves as a lifeline for those without access to an automobile. In both rural and metropolitan areas, mobility services come in a variety of forms, and the full array of travel options must be known and understood by the public. In short, we can – and we must – provide the public with a quality system that provides real choices.

For example, in the Portland, Oregon metropolitan area, officials invested in changes that made high-quality public transportation options widely available. As a result, Portlanders' per capita use of public transportation today is over 50% higher since the investments began 25 years ago.

When the federal government invests in public transportation funding it receives a 6-fold return on its investment, in both public and private benefits.

#### **CONCLUSION**

Experience has shown that investing in our nation's transportation infrastructure is vital to maintaining our mobility, our quality of life, and our economic competitiveness.

Future generations will salute our foresight in discussing, planning, and investing in public transportation just as we benefitted from investments made by earlier generations.

The decisions we make about our transportation system must of necessity be bold and forward thinking, very much like those 50 years ago that led to the national interstate system.

The American Public Transportation Association therefore strongly promotes these overarching ideas:

9.66

- By 2015, high capacity, high quality, energy efficient, environmentally responsible public transportation systems should be in place in every metropolitan region in America, and a choice of travel options should be available for all Americans in all areas.
- Investment in public transportation should provide the capacity and availability to enable public transportation ridership to more than double in the next 20 years to over 20 billion trips annually and to reach at least 50 billion by 2050.
- Public transportation should be an integral element of any national strategy to promote energy independence, improve air quality, address climate change, and provide mobility choices. The public transportation industry should lead the world in the use of green, sustainable technologies.
- Public transportation should continue its role as a strong national defense partner in providing for our homeland security through providing emergency mobility options and a means of reducing our dependence on foreign oil and the consequent money sent to unstable parts of the world.

As we look to the future, to a strong, healthy, prosperous America, we see that vital, capable, comprehensive public transportation systems are – and must remain – an integral part of our country's mobility strategy.

Such systems contribute to an enhanced quality of American life – from conservation of energy and resources, to improved air quality and health, to critical support during emergencies and disasters, to helping address the climate crisis.

The TransitVision 2050 initiative sees each federal surface transportation bill as a step toward a new, long-term direction. Future generations will feel indebted that the new direction launched in 2009 crafted a blueprint for a better, stronger nation.

Public transportation is on the move in the 21<sup>st</sup> century. More and more people each day move with it, discovering the many diverse benefits of traveling on the nation's public buses, trains, subways, trolleys, ferries, and vans.

# Principles to Guide APTA's Recommendations for the Next Highway and Public Transportation Authorization Bill

Public transportation can help to ensure a secure and sustainable future for America. For the last half century, America's national transportation vision focused on building a system of interstate roads to connect the geography of the nation. The next 50 years need to focus on travel options which connect people and enable prosperity in America's bustling economic growth centers. Just as the interstate highway system resulted from federal policy and participation, future transportation options will also require the continuation of that leadership.

The federal public transportation program should promote increased public transportation ridership and provide the necessary resources to achieve national goals to reduce greenhouse gas emissions and conserve limited energy resources. It should also offer increased investment in sustainable practices within the public transportation industry. By promoting energy efficient public transportation vehicles and facilities and encouraging efficient land use near public transportation routes, Congress can enhance the environmental and fuel conservation benefits that result from public transportation, and help individuals, and therefore the nation, reduce their carbon footprints.

- 1) Congress should authorize a significant increase in the federal public transportation program, with a total investment of no less than \$123 billion over the six year authorization period, with a goal of meeting at least 50% of the estimated \$60 billion in annual capital needs by the end of the authorization period and to support a projected doubling of ridership over the next 20 years.
- 2) Public transportation funding guarantees should be strengthened to ensure that authorized funds are appropriated each year to allow for the long-range planning, financing, and leveraging needed to advance necessary investment in public transportation capital projects and preserve and maintain the existing public transportation infrastructure in a "state of good repair."
- 3) Congress should take necessary steps to restore, maintain and increase the purchasing power of the federal motor fuels user fee to support a significant increase in the federal investment for the public transportation program.
- 4) Congress should promote the development of revenue generated from innovative financing mechanisms, such as public private partnerships, tolling and congestion pricing to supplement current revenue streams. Future federal energy and climate change legislation should be used to supplement not substitute funding provided through the federal highway and public transportation authorization legislation.
- 5) The federal public transportation program should retain no less than an 80% federal match ratio for all capital public transportation projects, including the New Starts program.
- 6) Congress should preserve a "needs based" approach to the distribution of funds under the federal public transportation program which builds on the current program structure and begins to address unmet program needs.

- 7) Congress should create incentives to increase state and local investment levels in public transportation.
- 8) Federal authorizing legislation for federal highway and public transportation investment should ensure that public transportation programs receive no less than 20% of all federal funds invested in surface transportation infrastructure.
- 9) Congress should simplify and streamline the current federal grant approval process to speed project delivery and reduce costs.
- 10) The federal public transportation program should recognize the cost of compliance with federal requirements and provide capital and operating assistance to meet those requirements and to help public transportation providers address costs which are beyond their ability to control. Federal law should also encourage state, local and private sector support for such expenses.
- 11) The federal public transportation program should support greater investment in research and development programs that will enhance service delivery, promote "best practices" through technical standards, and increase the operational efficiency of transportation systems.
- 12) The federal public transportation program should provide program funding to promote workforce development and career opportunities in the public transportation industry.
- 13) Federal authorizing law should ensure the consideration of public transportation alternatives within a multimodal regional and statewide transportation planning process, which is designed to achieve sustainable outcomes in plans, programs, and projects. There should be a balance of environmental (including greenhouse gas and climate change considerations), economic and social equity objectives in the process.

## FUNDING AND FINANCE RECOMMENDATIONS for the Next Highway and Public Transportation Authorization Bill

"In 2050 America's energy efficient, multi-modal, environmentally sustainable transportation system powers the greatest nation on earth."

Public transportation provides mobility that significantly contributes to national goals and policies in support of global economic competitiveness, energy independence, environmental sustainability, congestion mitigation and emergency preparedness. On an individual user basis, public transportation saves money, reduces the carbon footprint of households and provides people with choices, freedom, and opportunities. To sustain public transportation's many contributions at the national and local levels, and to accommodate a doubling of public transportation ridership over the next twenty-year period to address the aforementioned national goals and policies, the American Public Transportation Association (APTA) recommends a minimum federal public transportation investment level of \$123 billion over the next six-year authorization period. To address this minimum federal investment level, APTA has adopted the following Funding and Finance Authorization Principles.

- Authorize guaranteed investment levels for the federal public transportation program of at least \$123 billion over 6 years so that by the final year of the next authorization bill finance no less than 50 percent of the total unaddressed costs of bringing existing public transportation capital assets into a state of good repair.
- Maintain and strengthen the federal public transportation program funding guarantees.
- Authorize guaranteed investment levels for the federal public transportation program that support
  at least a doubling of public transportation ridership over the next 20 years (3.5% annual
  compounded growth).
- Preserve the current 80 percent federal match shares on all public transportation capital investment (and higher federal match ratios under existing incentive programs) and increase the actual share to the 80 percent level in appropriations.
- Ensure stable and reliable investments in public transportation supported from federal, state and local governments, from public transportation-generated revenues, and from public-private partnerships.
- To streamline the project approval process, speed project delivery and reduce costs, convert the federal public transportation program from a "grant-based" program to a locally-driven federally-assisted program where routine activities can receive advanced federal funding approval.

#### **EXISTING PROGRAM FUNDING**

Background

Federal public transportation programs are currently funded from two sources: the Mass Transit Account (MTA) of the Highway Trust Fund (HTF) and from General Revenues of the Treasury -- also called General Funds. Until fiscal year (FY) 1983 all public transportation funding was provided from General Revenues. The Surface Transportation Assistance Act of 1982 (STAA) created the MTA as a

separate account in the HTF for accrual of a portion of revenues from the federal motor fuel tax for public transportation uses. The 1982 STAA increased the federal motor fuel tax on gasoline from 4 cents per gallon to 9 cents per gallon and specified that 1 cent of the 5 cents per gallon increase would be deposited in the newly created MTA. Since then, 20 percent of each subsequent increase in the motor fuel tax has been deposited in the MTA. In 2008 a total of 2.86 cents per gallon is credited to the MTA. Currently, 15.5 percent of the total per gallon tax on gasoline and 11.7 percent of the total per gallon tax on diesel fuel are dedicated to the MTA.

In addition, until FY 1999, unexpended balances in the MTA drew interest revenue. Unexpended balances are created when the FTA obligates funds, that is, commits to fund an eligible public transportation project such as a bus garage, but does not actually pay for the project until it is completed. TEA 21 eliminated the accrued interest revenue for both the MTA and the Highway Account (HA) beginning in FY 1999.

#### **Existing Program Funding Principles**

- Continue to credit the MTA with, at minimum 20 percent of each future increase in the motor fuel (or successor) tax.
- Preserve, at minimum the current 20 percent general fund contribution necessary to support the federal public transportation program.
- At a minimum, restore the purchasing power of dedicated revenue for public transportation and other surface transportation investment to 1993 levels (when federal motor fuels taxes were last raised) and those revenue sources should be indexed to account for future inflation of construction costs.
- Establish clearly that revenues used to support federal surface transportation programs will be used only for purposes set forth under authorizing law.
- Ensure that the HTF is appropriately credited for ethanol motor fuels and other new and/or currently exempt alternative fuels.
- Restore the earning of interest income to the HTF/MTA.

#### **NEW PROGRAM FUNDING**

Background

According to the National Surface Transportation Policy and Revenue Study Commission, existing MTA revenues are inadequate to support existing commitments and required investment levels. According to the Commission, much more should be invested in public transportation infrastructure annually. This chronic underinvestment in America's transportation infrastructure has put our nation at a competitive disadvantage in the global economy. China currently spends 9 percent of its gross domestic product (GDP) on infrastructure and India budgets 3.5 percent while aiming to increase its allocation to 8 percent. By comparison, the United States budgets less than one percent (0.93) of its GDP, and sidesteps the reality of a ballooning \$1.6 trillion infrastructure deficit identified by the American Society of Civil Engineers (ASCE) for necessary upgrades over the next five years. Absent significant additional

federal investment, the condition of our nation's transportation infrastructure will only continue to decline. To reverse this trend new and diversified revenue sources will be required. Current and projected trust fund receipts are inadequate to support required program growth. Over the next six-year period the MTA is expected to generate only \$33 billion in new resources to support a recommended federal investment level of \$123 billion. In addition, the most recent Congressional Budget Office (CBO) report on MTA revenues projects that the MTA cash balance will be negative (insolvent) by the end of FY 2012 absent federal intervention. Failure to address the revenue imbalance of the MTA will result in continued inadequate investment levels that will result in lost jobs, reduced economic competitiveness, more congestion and limitations on personal mobility. To address the need for an enhanced and diversified portfolio of revenues to support the MTA, APTA recommends the following funding options to supplement the existing motor fuel tax and general fund contributions that support the federal public transportation program:

#### **New Program Funding Options**

- Include a new defined revenue source to pay debt service on bonds for large scale highway/public transportation core capacity/expansion improvements.
- Support longer-term efforts to transition the trust fund from motor fuel taxes/fees to a vehicle mileage tax and/or a vehicle weight/mile tax.
- Dedicate a portion of a new national sales tax or similar consumption-based tax to support and expand the MTA.
- Examine the longer-term viability of innovative financing techniques, including: public-private
  partnerships, federal loan guarantees, tax exempt/tax credit bonds, tolling and congestion pricing,
  value capture increment financing, and other mechanisms that consider changes in energy use and
  reduce state and regional carbon footprints.

## SPECIFIC PROGRAM STRUCTURE RECOMMENDATIONS Recommendations for the Next Highway and Public Transportation Authorization Bill

#### **BUS & BUS FACILITIES PROGRAM**

1) New Bus Program Proposal - Modify the current Bus and Bus Facilities Program to create two categories of funding. Fifty percent of the funds will be distributed under a new "Bus Formula Program." The remaining fifty percent will continue to be distributed as a discretionary program. Funds distributed under both categories will continue to be eligible for any of the purposes contained in the original Bus and Bus Facilities Program.

#### **Under the proposed Bus Program:**

- 50% of funds would be used to create a new "Bus Formula Program" which would remain separate from current formula programs. Funds would be distributed proportionately under the urban and rural formula programs based on the bus formula factors of the urban formula (Section 5307) and the rural formula factors (Section 5311).
- 50% of funds would be used for a discretionary "Bus Facilities" program which would distribute grants for bus and bus facilities projects eligible under the current Section 5309 program. Funds would be distributed through Congressional direction or under a competitive grants process administered by the Federal Transit Administration. Projects selected must be eligible for funding under the existing Bus and Bus Facilities program.
- Funds would not be eligible for operations or preventative maintenance.
- Time limit to obligate bus funds would be extended to 4 years, including the year in which the amount is made available or appropriated.
- 2) Provide up to 100% federal share for funding the incremental cost of purchasing alternative fuel buses. Based upon local considerations of a public transportation system, federal share for the incremental cost for the purchase of alternative fuel buses (including hybrid electric and alternatives fuels other than clean diesel) could be funded with 100% federal share (no local match required for the incremental costs).

#### **CLEAN FUELS AGING BUS REPLACEMENT PROGRAM**

Create a new program that would direct funds to transit agencies to replace aging buses in their fleets with new, clean fuel vehicles. This program would address two top priorities for transit agencies. It would provide needed funds to help transit agencies to replace vehicles in their fleets that have exceeded the Federal Transit Administration's (FTA) standard for replacement, and accelerate the replacement of existing diesel vehicles with new, fuel efficient vehicles.

#### **Under the proposed Clean Fuels Aging Bus Replacement Program:**

- This new program should replace the existing "Clean Fuel Bus Program" (49 U.S.C. §5308).
- \$100,000,000 should be provided in the first year of program, and then grow annually at a proportion equal to the growth of federal transit program overall.
- Funds provided would be in addition to those made available for the Bus and Bus Facilities program. The program should be funded from amounts that would have otherwise been

9.613

- made available under the Clean Fuel Bus program and new funds made available under the federal transit program overall.
- Federal share for the incremental cost of purchasing clean fuel vehicles under this program should be 100%. No local match is required for the incremental cost of purchasing a clean fuel vehicle.
- Funds should be apportioned by formula to designated recipients in urbanized areas over 200,000 and to states for distribution to grant recipients in urbanized areas less than 200,000 and rural areas.
- Funds should be apportioned to designated recipients and states under a formula that is
  based on the relative share of the total cost to replace vehicles within the urbanized area or
  state that exceed 125% of the FTA standard for replacement. Funds should not be made
  available to transit agencies that do not have vehicles that exceed 125% of the FTA standard
  for replacement.
- Grant recipients would be required to purchase clean fuel vehicles, which include vehicles powered by:
  - Compressed natural gas;
  - Liquefied natural gas;
  - Biodiesel fuels;
  - o Batteries;
  - Alcohol based fuels;
  - Hybrid electric; and
  - Fuel cells

#### **FIXED GUIDEWAY MODERNIZATION PROGRAM**

#### 1) Fixed Guideway Modernization Program

#### **Assumptions**

- Program funding will double (overall and in each category)
- Program elements should be simple.
- Program should be needs based
- Use current National Transit Database statistics
- Maintain and guarantee a 40/40/20 split between Fixed Guideway/New Starts/Bus
- New elements should be based on rational justifiable factors

#### **New Formula Proposal**

- Replace seven current tiers with a simpler two-tier fixed guideway modernization formula distribution that at a minimum holds all current recipients harmless.
- The existing apportionment tiers would be used to determine the base amount for a new Tier 1. All areas that receive funding in FY 2009 would be part of this tier. Under Tier 1, the FY 2009 Section 5309 apportionments would be increased by 50 percent of the overall growth in the program. This calculation would be repeated annually.
- The remaining 50 percent of annual growth of the program will be distributed under Tier 2 using the Section 5307 rail tier formula (including the incentive tier) for all fixed guideway properties/line segments that meet a seven year minimum age requirement.

2) Fixed guideway funds must be provided equitably to all projects. There should not be a population threshold for fixed guideway modernization funds.

#### **NEW STARTS and SMALL STARTS PROGRAM**

The New Starts Program (Section 5309) is a critical component in ensuring continued investment in public transportation essential to enhancing our nation's mobility, accessibility and economic prosperity while promoting energy conservation and environmental quality. Congress should continue this discretionary program based on eligibility requirements, evaluation criteria and oversight requirements established in statute, administered by FTA, and funded through congressional appropriations. Eligibility of Bus Rapid Transit projects for New Starts/Small Starts funding should be retained.

#### Recommendations:

- 1) Create a simplified and streamlined rating process for all Small Starts that promotes expedited project delivery, with FTA oversight proportional to the federal contribution. In addition, the \$75 million and \$250 million thresholds established for Small Starts in SAFETEA-LU should be escalated annually over the life of the bill.
- 2) Re-establish an exempt project category as part of the New Starts/Small Starts program for projects that require a modest amount of Section 5309 funding. The \$25 million threshold established in previous surface transportation authorization bills should be increased to reflect inflation since the threshold was established and it should be escalated annually over the life of the bill to reflect future inflation.
- 3) Streamline and simplify the New Starts review and approval process to expedite project delivery:
  - Replace the current Section 5309(d)(5)(A) requirement that FTA approve the
    advancement of a New Starts project into Preliminary Engineering with a requirement
    that FTA approve a project into the New Starts Program. Approval to enter the New
    Starts Program would convey FTA's intent to recommend a project for funding, provided
    the project continues to meet certain broad criteria and satisfies NEPA and other project
    development conditions.
  - Eliminate the Section 5309(d)(5)(a) requirement that FTA approve advancement of a New Starts project into Final Design.
  - Advance the concept of Project Development Agreements (PDA) as a management tool to minimize uncertainties and reduce risks, with flexibility built in to make changes to the agreement as the project evolves. The PDA should include schedules and roles for both FTA and the grantee and should define the criteria and conditions a project must meet to streamline and expedite overall project delivery and could be the basis for an Early System Work Agreement once the National Environmental Policy Act (NEPA) process is completed with a Record of Decision (ROD) or Finding of No Significant Impact (FONSI).

- Expedite New Starts project delivery by expanding pre-award authority at the time of the NEPA finding beyond just property acquisition to include preliminary engineering, final design, and any early construction activities that are advanced with local funds.
- Expand the opportunity for advance property acquisition by developing a class of acquisition for willing sellers or friendly condemnation at fair market value. Provided no alterations are made to the property prior to completion of NEPA, this change in property ownership will not prejudice the NEPA process.
- 4) Broaden the project justification and financial rating criteria and apply other measures to recognize a full range of project benefits.
  - Direct FTA to develop more effective measures of public transportation supportive land use and economic development utilizing both quantitative and qualitative factors related to the local population and employment context.
  - Recognize environmental benefits that promote community health and sustainability include reductions in green house gasses and increased energy efficiency.
  - Base the cost effectiveness index on the Federal Section 5309 share of project costs rather than the total project cost.
  - Direct FTA to provide greater flexibility in the New Starts Baseline to more closely reflect local conditions and priorities.
- 5) Re-establish the Program of Interrelated Projects provision of ISTEA.
  - Allow the individual projects in a program of interrelated fixed guideway projects to move forward simultaneously, in order to capture the inflation and overhead savings that can result.
  - Allow some projects within the program of interrelated projects to be funded entirely
    with local funds, and other projects in such a program to be funded with a share of
    federal New Starts funds.
  - Allow a higher New Starts share for individual projects using some federal funds, without prejudice to a project's financial rating, where the federal New Starts share for the entire program of interrelated projects is 20% or less.
  - Require Federal procedures only for those projects/elements utilizing Federal dollars.

#### **FORMULA PROGRAMS**

- 1) Public transportation systems in urbanized areas of more than 200,000 population which operate less than 100 buses in peak operation should be authorized to use FTA Section 5307 formula funds for operating purposes.
- 2) Grow Small Transit Intensive Cities Program at Incremental Rate. Continue and expand the Small Transit Intensive Cities Program (STIC) (Section 5336) which provides supplemental formula funds to smaller public transportation systems on the basis of performance in six qualifying performance areas and provide that the value of qualifying in each of the six areas shall be increased by the same percentage as the increase in the overall formula program each year of the authorization.

3) Modify the current Job Access and Reverse Commute (JARC), New Freedom, and Elderly and Disabled Formula Programs. Create a new program, the Coordinated Mobility Initiative, with the objective of developing a sustainable intermodal program that addresses growing and evolving mobility needs. It is intended to bring together an array of non-traditional connections to public transportation in order to form a broader system that integrates the family of services but recognizes public transportation works within and between communities.

The Coordinated Mobility Initiative would encompass the funding and constituent focus of FTA's current Elderly and Disabled program (Section 5310), Job Access and Reverse Commute program (Section 5316), and the New Freedom Initiative (Section 5317). Use of these funds must conform to an enhanced and expanded locally developed coordination plan. This planning process should be consistent with the regional planning requirements contained within SAFETEA-LU.

Funding for these programs shall be consistent with the growth called for in APTA's overall proposal. Programs should be allowed to be more flexible to meet local needs, rather than adhere to rigid categorical allocations. Make clear that recipients under the new program can use funds for "capital cost of contracting." Incentives for use of non-DOT federal funds for program activities and implementation of local coordinated plans should be maintained.

#### The new program should:

- Include new funding for the section 5310(a)(1) program for public agencies as well as
  ongoing and increased funding for the section 5310(a)(2) program to cover the full array
  of mobility needs for the elderly and persons with disabilities.
- Provide incentives for the planning and development of regional transportation services which connect multiple jurisdictions. Funding should be equitable across urban and non-urban areas.
- Change reporting requirements to allow local agencies to report all FTA funds received under this program in a single, consistent reporting format.
- Use models of best practices to link public health and transportation planning in the new federal program, such as the existing State of Washington and Wasatch Regional Council processes which combine fund sources to meet the human service transportation needs of their diverse populations.

#### **Coordinated Mobility Initiative Program Features**

- The new program shall combine funds available under the Elderly and Disabled Program, Job Access and Reverse Commute Program (JARC) and New Freedom Initiative (NFI) into one program. This would eliminate the three distinct programs and create one "Coordinated Mobility Initiative" formula program.
- Funding levels shall be consistent with combined amounts made available under the JARC, NFI and Elderly and Disabled programs under SAFETEA-LU, and grow at a rate consistent with the growth of the federal transit program overall.

- Funds will be distributed to designated recipients consistent with the JARC and NFI model contained in SAFETEA-LU— 60% distributed directly to designated recipients in large urbanized areas, and the remainder distributed to the states, with 50% reserved for small urbanized areas (population 50,000 to 200,000) and 50% reserved for rural areas.
- The formula for determining amounts to be distributed to designated recipients shall take the following factors into consideration: population of elderly people, population of disabled people, and Temporary Assistance for Needy Families (TANF) eligible population.
- Eligible uses of the funds will include all of the activities eligible under the current Elderly & Disabled, JARC and NFI programs, including the amended eligible use of NFI funds recommended below.
- Designated recipients shall have the flexibility to distribute funds to public and private non-profit program operators to carry out any of the eligible activities described above, in a manner that best meets local needs.
- Designated recipients will be responsible for distributing funds to public or private nonprofit organizations through a competitive grant process. Eligible projects must continue to be selected from the locally developed coordinated human services transportation plan.
- The maximum federal share for activities under this program shall be 80% for capital expenses and 50% for operating expenses.
- 4) **New Freedom Eligibility**. The new Coordinated Mobility initiative which addresses goals of the existing New Freedom program should permit funding for projects and programs that are new <u>or</u> which serve people with disabilities and address needs beyond the requirements of current ADA regulations.
- 5) Workforce Development Continue current training and create new training programs and initiatives to support public transportation/labor management workforce development in both the public and private sectors. Provide funding sufficient to support on-going and new programs. Increase funding for workforce development programs consistent with overall growth of the federal public transportation program.
  - Continue and expand existing programs.
  - Make training a permissible use of federal urbanized area 5307 formula funds and federal rural area 5311 formula funds at levels determined by individual public transportation systems. Funds would be eligible to develop and deliver training and development programs or to attend off-site training programs, including related travel expenses.
  - Continue and expand programs for organizations such as the Transportation Learning Center, the National Training Institute (NTI) at Rutgers University, and continue to promote and develop public transportation agency/community college/college and university consortium partnership models.
  - Provide \$15 million in new funding for industry-led, directed, and managed nationwide comprehensive studies, assessments, outreach, partnerships, and development initiatives to identity critical skill gaps, development of new training resources, tools,

- forums, partnerships, and programs which address the needs of the current and next generation workforce at all levels.
- Provide \$10 million in year one and to grow annually at the same rate as the overall
  public transportation program to support funding to create labor/management regional
  training consortium partnerships that provide advanced public transportation specific
  skills training for operators and maintainers.
- 6) **Program to leverage state and local investment** Develop an incentive program to encourage states and local regions to create and expand dedicated funding sources for public transportation that can be used for either capital or operating expenses.

#### SPECIFIC POLICY RECOMMENDATIONS

#### Recommendations for the Next Highway and Public Transportation Authorization Bill

#### COORDINATION AND INTERMODALISM

- Extend coordination requirements for federally-funded agency transportation programs to require the development of consistent administrative policies and procedures for highway and public transportation projects.
- Provide incentives for the planning and development of regional transportation services which connect multiple jurisdictions.
- Incentivize the implementation of the concept of mobility management to plan and deliver a diversified package of services addressing multiple diverse mobility needs.
- Federal authorizing laws for human services transportation, including non-emergency medical transportation, should be amended to require coordination among and cost sharing for service delivery with public transportation providers. Such language should be included in transportation, health and human services, and Medicare-Medicaid authorization law.

#### **ENERGY/ENVIRONMENT/CLIMATE CHANGE**

- Develop and implement incentives that will facilitate the adoption of new clean fuel technologies, and enhancements to existing technologies that are readily available to improve fuel economy and emissions performance of public transportation equipment, enabling public transportation to continue to reduce its carbon footprint.
- Provide incentives for Americans to take full advantage of the range of mobility products offered by the public transportation industry to assist individuals to take less-polluting travel alternatives in order to reduce their own carbon footprint.

#### **FLEXIBLE FUNDING PROGRAMS**

- Preserve and enhance the transferability provisions between Title 23 and 49, including Congestion Mitigation and Air Quality (CMAQ), Surface Transportation Program (STP), and other programs at the same rate of growth as the overall FHWA program
- Specify that significant capital improvements to public transportation facilities, including
  improvements to intermodal connections, in non-attainment areas are eligible for
  CMAQ funding. Particularly in areas with high public transportation mode share, these
  investments help ensure that VMT does not increase in the long term and help retain
  the existing public transportation mode share.
- Eliminate current three year limit on use of funds for operating costs for CMAQ programs.

#### **PLANNING**

1) Strengthen the public transportation role in regional decision making. Planning at the regional level is crucial for public transportation agency plans and programs. Regional planning establishes the demographic and land use projections, the social equity objectives, the economic development objectives and the environmental stewardship objectives for the

region into which the public transportation development program must fit. It also provides for the development of improved planning tools and forecasting models that can support public transportation agency planners. Public transportation agency involvement in all of those regional planning efforts ensures the region does not lose sight of public transportation needs and considerations.

- The new authorization should include language stipulating that the FTA/FHWA regulations on Statewide and Metropolitan Transportation Planning require fair and equitable voting representation of the region's public transportation operating agency or agencies on the policy board and technical committees of the Metropolitan Planning Organizations (or other regional transportation planning bodies), regardless of whether the body is newly-formed or existing, no matter the size of the urban region.
- The new authorization should encourage regional transportation investment choices be multimodal in nature, including:
  - Provision for multimodal corridor planning that looks at public transportation, highway and combination options, and avoids competing facilities occurring simply because they draw upon different funding programs or resources, which are governed by different regulations.
  - Public transportation megaprojects should be eligible under the FHWA high priority projects program in order for it to be administered and operated as a fully functioning, multi-modal program.
  - Expands the use of flexible funding in making regional transportation investments for all modes.
- The new authorization should allow the planning and decision-making framework to streamline and shorten planning and project development time for projects that have been identified and approved under the statewide and metropolitan planning process.
  - Fiscal Constraint. Fiscal constraint should be achieved as expeditiously as possible. The TIP is a program management tool used by the MPO to demonstrate funds exist for a set of projects. A formal TIP amendment should not be required every time there is a change in cost, schedule, fund source, or when an actual appropriation differs from the projected appropriations. These adjustments are required on a regular basis, particularly in large multijurisdictional MPOs.
    - A demonstration of fiscal constraint should be based on all available fund sources, not just federal funds.
    - A change in fund source for a project already on the TIP should not trigger a formal amendment, provided fiscal constraint is maintained.
       An administrative modification should be sufficient.
  - Categorical Exclusions. Direct the Secretary of Transportation to expand the
    use of categorical exclusions for public transportation projects to the greatest
    extent allowed by law. This will help expedite project delivery.
    - For example, extend the same flexibility in administering categorical exclusions that has been afforded to state Departments of Transportation to regional transit providers.
    - For example, adding transit station rehabilitations to the list of findings under 23 CFR 771.113(c) would align this type of transit project with the

- analogous highway projects included under (c) 12, "improvements to existing rest areas and truck weigh stations."
- In general, as noted in 771.113 (e), "where a pattern emerges of granting Categorical Exclusion (CE) status for a particular type of action, this type of action should be added to the list of categorical exclusions in paragraph (c) or (d) of this section, as appropriate."
- Clean Air Act Exemptions. Add public transportation projects that enhance capacity, convenience and/or reliability to the exempt project list for Clean Air Act purposes. In markets with high public transportation mode share, these types of improvements will help ensure that riders continue to use public transportation:
  - Fleet Procurement
  - Rail System Improvements, such as:
    - Increased line throughput (e.g., train control, signalization)
    - Improved operational flexibility (e.g., crossovers)
    - Increased passenger throughput capacity (e.g., fare collection, circulation improvements)
  - Station Improvements
  - Access to station (e.g., additional parking, shuttle buses and shuttle ferries)
- Public Transportation Expansion. In the event of a conformity lapse, projects that expand public transportation capacity in order to meet current demand should be allowed to proceed.
- The new authorization should reaffirm and continue the existing requirements established under ISTEA and SAFETEA-LU for public outreach and public involvement in the metropolitan transportation decision-making process.
- 2) Include public transportation in congestion pricing plans. The next authorization of the surface transportation programs should unleash the potential for congestion pricing, while protecting public transportation's interests. The legislation should establish a coherent policy framework through which pricing proposals and associated public transportation may be considered and developed. Even with congestion pricing as a potential new source of revenue, there will remain a need for a robust Federal programs supporting investments in public transportation. To ensure that area-wide congestion pricing does not become a new unfunded mandate for public transportation, the policy framework established in new authorizing legislation should:
  - Remove constraints to congestion pricing, moving from the current construct of pilot
    projects to a more blanket approach to pricing as a means to manage auto use, promote
    public transportation ridership and mode shifts away from single occupant vehicles, and
    generate revenue;
  - Require that congestion pricing proposals be developed jointly with public transportation agencies;
  - Require that congestion pricing proposals examine the impact on public transportation ridership and the cost of accommodating this ridership on public transportation;
  - Require that congestion pricing proposals include an expenditure plan that shows how any increased costs to public transportation will be met;

- Permit the revenues generated by congestion pricing to be made available for increased public transportation capital and operating costs within the same general corridor or service area;
- Make the capital cost and initial start up operating costs of congestion pricing projects eligible for Federal funds;
- Require that additional federal funds (not formula) be made available to allow public transportation agencies to ramp up service in preparation for the ridership increase before pricing revenues start to flow;
- Given the likelihood that multiple agencies will be involved in carrying out a congestion pricing program, provide flexibility in the eligible uses for public transportation recipients of any Federal funds provided;
- Offer a streamlined environmental process for congestion pricing projects that have a substantial public transportation component:
- Exempt congestion pricing projects from the conformity requirements of the Clean Air Act if they have a substantial public transportation component; and
- Promote a comprehensive post-implementation evaluation of pricing projects –
  including an assessment of effectiveness in managing auto use, promoting public
  transportation ridership and mode shifts away from single occupant vehicles, and
  generating revenue and identifying any necessary remedial actions, including those to
  address impacts on low income and disadvantaged groups.
- Recognize that implementation of congestion pricing should not result in future reduction of federal aid.
- 3) Access and land use. Federal policy should encourage and support pedestrian and bicycle access to public transportation, public transportation supportive urban design, and the complete streets concept to improve community livability, environmental quality and economic health. Coordinated Mobility in its broadest context focuses on the entire trip and the interaction of transportation modes with community design to create a truly seamless and integrated transportation experience both on and off vehicles.

#### REGULATORY

- The transparency provision in 49 U.S.C. 5334(I) regarding "binding obligations" should be clarified to ensure that it applies to <u>any</u> pronouncement from anywhere in DOT (including OST and modal administrations such as FHWA), not just FTA.
- The transparency provision in 49 U.S.C. 5334(I) should be expanded to require the creation of a structured and ongoing advisory group to review and provide input and guidance to DOT (including OST and modal administrations such as FHWA and FTA) prior to the publishing or release of any NPRM or guidance on any items relating to ADA issues, service, design, or interpretation. The advisory group should be made up of representatives from the FTA, the public transportation providers, and the disability community.
- Any regulatory proposals by non-DOT federal agencies that affect Non-Emergency Medical Transportation or any other human service transportation programs should be brought to the inter-agency Coordinating Council on Accessibility and Mobility (CCAM) for discussion about their coordination impacts <u>before</u> such proposals are submitted to OMB for review or released to the public for comment.

• The Department of Health and Human Service, Veterans Administration, and other federal agencies that provide wheelchairs and other mobility devices (or funding for such) to/for clients should be encouraged to include "informed consent" in their criteria for determining the "most appropriate device," and a concept akin to a human services version of life-cycle costing (e.g., taking into account the financial and quality of life impacts, rather than merely looking at only the initial cost of procurement) in determining "low cost" for purchasing and prescribing such devices.

#### **RESEARCH & DEVELOPMENT**

- Increase investment in research and development programs that will enhance service delivery, promote "best practices" through technical standards, and increase the operational efficiency of transportation systems.
- Increase investment in research and development for new technologies such as clean fuels, ITS enhancements, interoperable wireless communication, etc.
- Continue to support University Transit Centers, Project Action, NTI, TCRP, and FTA's
  national research program. These programs provide support to the public
  transportation industry; percentage needs to grow at the same rate as the overall
  program.
- Encourage federal Department of Transportation, Department of Energy, and Environmental Protection Agency to work with each other and with public transportation systems and businesses to develop and implement a new federal research and technology program to enable America's public transportation systems to become world leaders in innovation and sustainability, particularly with respect to strategies that rationalize commercialization and deployment of new technologies.

#### **PUBLIC - PRIVATE PARTNERSHIPS**

Public Private Partnerships should be used to supplement – not substitute – funding provided through the federal highway and public transportation authorization legislation.

- 1) Provide Incentives for using Public-Private Partnerships in the Project Development Process.
  - Incentivize projects that conduct feasibility analysis regarding alternative operations
    methods, including contracting, franchising, etc. in the project development process
    (alternatives analysis / preliminary engineering.) This could include consideration in
    determining local match, or in evaluating projects overall.
  - Encourage use of private sector operations and maintenance (O&M) strategies as well as other public-private partnership models in the project development process. This must be optional, not prescriptive.
- 2) Clarify and Expand Public-Private Partnership Programs. Clarify the purpose and strengthen the Public-Private Partnership Pilot Program (Penta-P) beyond its current application, possibly to become a supplemental option for finance and project delivery.
- 3) Identify Innovative Operations & Maintenance (O&M) Service Delivery Models. Congress should authorize and fund a study of the possible wider application of international and

9.624

North American private sector finance, project delivery and O&M approaches in the U.S. public transportation market.

- 4) **Improve Project Delivery Procedures.** Establish a process at FTA to consider public-private solutions to enhanced project delivery, which could include FHWA's SEP-15 program in FTA.
- 5) **Streamline Procurement and Contracting Guidelines.** Propose specific ways to expedite public projects, which could include importing FHWA contracting concepts into FTA.

#### TAX CODE CHANGES

- 1) Tax credit for alternative fuel consumption. The current 50 cent per gasoline gallon equivalent (gge) tax credit for compressed natural gas (CNG) should be made permanent. New law should make clear that all vehicles used by public transportation systems, including staff and other agency vehicles are eligible for the tax credit.
- 2) Equalize the federal tax benefits for public transportation and parking. Increase the federal employee commute benefit for public transportation to the same level provided for parking. Amend federal tax law to increase the public transportation commute benefit from the \$115 per month level to the \$220 per month level authorized for parking.
- 3) Amend the federal tax code to provide a tax credit for employers who pay for the cost of public transportation passes, up to the authorized monthly limit, for employees.
- 4) Make clear that public transportation paratransit operations and public transportation operators that use vans are eligible for the same exemptions from federal excise taxes on motor fuels that are provided to public transportation operators of fixed route public transportation buses.

#### **FUEL PRIORITY FOR TRANSIT SYSTEMS**

**Fuel priority.** Provide statutory language to ensure that public transportation systems receive priority access to fuel when fuel resources are scarce.

# SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

#### STAFF REPORT

DATE:

December 19, 2008

TO:

Board of Directors

FROM:

Marghet Gallagher, District Counsel

SUBJECT:

CONSIDERATION OF AMENDING METRO'S CONFLICT OF INTEREST CODE PURSUANT TO GOVERNMENT CODE §87300

#### I. RECOMMENDED ACTION

Adopt changes to Conflict of Interest Code, Pursuant to Government Code §87300 as set forth in Attachment A.

#### II. SUMMARY OF ISSUES

- Every agency, including all local government agencies and special districts are required by Government Code §87300 to adopt and promulgate a Conflict of Interest Code.
- The Conflict of Interest Code must be reviewed every two years and amended when circumstances change, such as when new positions are created or duties of existing positions change.
- An Amendment is required as there are new positions, or titles to positions have changed. Additionally, consultants need to be designated, in order to ensure compliance.

#### III. DISCUSSION

The Political Reform Act (the PRA) controls conflicts of interests of public officials through disclosure of financial interests and prohibitions on participation in the making of decisions in which the official knows or has reasons to know he or she has a financial interest. The PRA's standards are found in California Government Code Sections 81000 et seq. The Fair Political Practices Commission (FPPC) has also adopted regulations implementing the PRA, see Title 2 of the California Code of Regulations Section 18109 et. seq., and issues formal opinions and advice letters on the application of the PRA to particular situations. The FPPC maintains a website at <a href="https://www.fppc.ca.gov">www.fppc.ca.gov</a> which contains the PRA regulations, opinions and advice letter summaries.

In accordance with the PRA, all government agencies must adopt and promulgate a Conflict of Interest Code. This code must be reviewed every two years and amended when circumstances change, such as when new positions are created or duties of existing positions change. The code must be consistent with the minimum requirements of the PRA. Such Conflict of Interest Code has the force of law and violation of the Conflict of Interest has the force of law and any violation of the Conflict of Interest Code by a designated employee shall be deemed a violation of Government Code §87300, et seq.

Designated officials, employees, members and consultants are required to file Statements of

Economic Interests (Form 700) with the METRO. A Statement of Economic Interest must be filed upon assuming office, or a designated position, annually while holding office or a designated position, and upon leaving office or a designated position. The statement, must disclose the interests of the filer and of his or her immediate family, which includes the filer's spouse and dependent children. The Statements, depending on the designated disclosure category, must disclose specified types of investments, interests in real property and businesses, income, gifts and loans. Moreover, these statements must include the acquisition and disposition dates of investments in real property covered by the period of the statement.

The California Attorney General, the FPPC and local district attorneys are empowered to enforce the Political Reform Act through criminal sanctions, civil liability and civil penalties. Although the penalties for violations of various provisions of the PRA vary, civil penalties are generally based upon the amount of money or value of a gift or contribution not reported. Penalties can be as high as \$10,000 or three times the amount not reported, whichever is greater. Because good faith is relevant in determining criminal and civil liability, it is particularly important that affected individuals seek advice from the District's Counsel and/or the FPPC whenever a potential issue arises. However, only a formal written advice letter from the FPPC will confer immunity from liability under the PRA.

In December of 2006, METRO's Conflict of Interest Code was consolidated from various formats and codes into one Conflict of Interest Code, ensuring that all California state law requirements are met with regard to designated positions and disclosure categories.

The Political Reform Act requires every local government agency to review its conflict of-interest code biennially. Not later than October 1 of each even-numbered year, each agency must submit to the County Board of Supervisors a notice indicating whether or not an amendment is necessary.

At this time, an Amendment is necessary to METRO's Conflict of Interest Code, as there are new positions, including consultants that must be designated, as well as revisions of certain titles of existing positions. The required amendments are self-explanatory and are shown in Attachment A via bolding and cross-outs.

A Public Hearing was held on November 21, 2008 to discuss the proposed changes to METRO's Conflict of Interest Code and the 45-day comment period ended on December 11, 2008. As no public comments were received and no objections were discussed at the public Hearing, the recommended action is to accept the amendments to the Code as shown in Attachment A.

TITLE:

CONFLICT OF INTEREST CODE FOR DESIGNATED

OFFICIALS, EMPLOYEES, MEMBERS AND CONSULTANTS

Procedure History		
<b>NEW POLICY</b>	SUMMARY OF POLICY	APPROVED
12-15-06	Consolidation of Policies and requirements into regulation format and specific use of required language, including designated positions including Senior Account Technician, and disclosure categories.	M.R.
<u>12-19-08</u>	Amending list of designated positions in Appendix A	

#### I. POLICY

- 1.01 The Political Reform Act, Government Code Section 81000, et seq., requires state and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission (FPPC) has adopted a regulation, Article 2 of the California Code of Regulations Section 18730, which contains the terms of a standard conflict of interest code. The terms of Article 2 of the California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission (FPPC) are hereby incorporated by reference and, all officials, employees, members and consultants designated herein and disclosure categories set forth herein, constitute the Conflict of Interest Code of the Santa Cruz Metropolitan Transit District (METRO).
- 1.02 Designated Officials, Employees, Members and Consultants shall file Statements of Economic Interests (Form 700) with the METRO at its Administrative Offices located at 370 Encinal Street, Suite 100, Santa Cruz, California 95060 on forms prescribed by the FPPC and supplied by the METRO at the times specified in Title 2of the California Code of Regulations, Section 18730. Such forms can be obtained from METRO's Administrative Services Coordinator.
- 1.03 METRO will retain the completed Form 700s prepared by all designated officials, employees, members and consultants. METRO will make the For 700s available for public inspection and reproduction upon request.

1.04 Designated Officials, Employees, Members and Consultants violating any provision of this regulation are subject to the administrative, criminal and civil sanctions provided in the Political Reform Act, Government Code Sections 81000-91014. Additionally, any violation may subject a METRO employee to disciplinary action up to and including employment termination.

#### II. DESIGNATED POSITIONS

- 2.01 The persons holding positions listed in Appendix A are designated Officials, Employees, Members or Consultants for purposes of METRO's Conflict of Interest Code. It has been determined that these persons through their METRO employment position or their status as a METRO Official, Member or Consultant make or participate in the making of governmental decisions which may foreseeably have a material effect on economic or financial interests of their own or others.
- 2.02 METRO Officials, Employees and Members listed in Appendix A shall complete their Form 700s pursuant to the Disclosure Category set forth in Appendix A.
- 2.03 Consultants listed in Appendix A shall disclose pursuant to the broadest disclosure category (Category 1) unless METRO's General Manager determines in writing that a particular Consultant, although holding a "designated position," is hired to perform a range of duties that is limited in scope and thus is not required to comply fully with the disclosure requirements described in this section. Such determination shall include a description of the consultant's duties and, based upon that description, a statement of the extent of disclosure requirements. The General Manager's determination is a public record and shall be retained for public inspection in the same manner and location as this Conflict of Interest Code.
- 2.04 An individual holding one of the positions listed in Appendix A may contact the Fair Political Practices Commission for assistance or written advice regarding their filing obligations if he/she believes that their position has been categorized incorrectly. The Fair Political Practices Commission makes the final determination whether a position is covered by Government Code Section 87200 and as a result the individual holding such position is required to complete a Statement of Economic Interest (Form 700).

# III. DISCLOSURE CATEGORIES (Form 700):

#### 3.01 Disclosure Categories are the following:

#### Full Disclosure-Category 1:

All interests in real property located within the jurisdiction, as well as investments, business positions and sources of income, including gifts, loans and travel payments.

#### Full Disclosure (excluding interest in real property)-Category 2:

All investments, business positions in business entities, and sources of income, including gifts, loans and travel payments.

#### **Interests in Real Property-Category 3**

All interests in real property located in the jurisdiction.

#### **General Contracting Categories-Category 4**

- a) All investments, business positions and income, including gifts, loans and travel payments, from sources that provide leased facilities, goods, equipment, vehicles, machinery or services, including training or consulting services, of the type utilized by the METRO.
- b) All investments, business positions and income, including gifts, loans and travel payments, from sources that provide leased facilities, goods, equipment, vehicles, machinery or services, including training or consulting services, of the type utilized by the employee's department or area of authority.

#### Grant/Service Providers/Agencies that Oversee Programs-Category 5

- a) A designated employee in this category must report all investments, business positions and income, including gifts, loans and travel payments, or income from a nonprofit organization, if the source is of the type to receive grants or other monies from or through the METRO.
- b) All investments, business positions and income, including gifts, loans and travel payments, or income from a nonprofit organization, if the source is of the type to offer or provide consulting, rehabilitative or educational services concerning the prevention, treatment or rehabilitation of persons suffering from (alcohol related problems/drug abuse).

#### IV. DISQUALIFICATION

- 4.01 No designated individual shall make, participate in making, or in any way attempt to use his or her official position to influence the making of any governmental decision which he or she knows or has reason to know will have a reasonably foreseeable material financial effect, distinguishable form its effect on the public generally, on the official or a member of his or her immediate family in violation of 2 Cal. Code of Regs. Section 18730.
- 4.02 No designated employee shall be prevented from making or participating in making of any decision to the extent his or her participation is legally required for the decision to be made. The fact that the vote of a designated employee who is on a voting body is needed to break a tie does not make his or her participation legally required for purposes of this section.

# SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

December 19, 2008

TO:

**Board of Directors** 

FROM:

Leslie R. White, General Manager

**SUBJECT:** 

CONSIDERATION OF REAPPOINTMENT OF CURRENT MEMBERS OF THE METRO ADVISORY COMMITTEE WHOSE TERMS EXPIRE DECEMBER 31, 2008 TO NEW TERMS ON THE METRO ADVISORY

**COMMITTEE (MAC).** 

#### I. RECOMMENDED ACTION

That the Board of Directors reappoint the Members of the Metro Advisory Committee (MAC) whose terms are expiring for two-year terms commencing January 1, 2009.

#### II. SUMMARY OF ISSUES

- On December 19, 2003 the Board of Directors approved the creation and structure of the Metro Advisory Committee (MAC).
- As a result of the action taken by the Board of Directors the Bylaws for the MAC were created and adopted.
- The Board of Directors appointed the initial Members of the MAC on February 27, 2004.
- The first meeting of the MAC was held April 21, 2004.
- Article III of the Adopted MAC Bylaws outlines the criteria for committee membership.
- There are two current Members of the MAC who were appointed for terms ending December 31, 2008 and who are all eligible for reappointment to another two-year term.
- Staff recommends that the Board of Directors reappoint the current Members of the MAC whose terms expire December 31, 2008 to two-year terms commencing on January 1, 2009.

#### III. DISCUSSION

For many years two citizen advisory committees served METRO. The Metro Accessible Transit Services Forum (MASTF) addressed issues of accessibility on the fixed route service, paratransit service, and facilities. The Metro Users Group focused on the overall service that was provided, the information distribution and marketing programs, and advised the Board on other matters that were referred to it for consideration.

On December 19, 2003, after a significant amount of discussion and multiple meetings the Board approved the creation of a new Metro Advisory Committee (MAC) that would replace MUG. The Board approved the structure of the new committee and directed staff to prepare necessary modifications to the MAC Bylaws to reflect the decisions that were made with respect to committee size and structure.

In the time that has passed since the Board took action with respect to the formation of the MAC the Committee has met on a regular basis commencing with the first meeting that took place on April 21, 2004. The Committee attendance has been good and the discussions have been productive. The Committee has been working on many issues and has presented the General Manager and the Board with recommendations for the improvement of service to riders.

The terms of the listed (attachment A) Members of the MAC expire December 31, 2008. In accordance with Article III of the Adopted MAC Bylaws all of the Members of the MAC listed on Attachment A are eligible for appointment to another two-year term. Staff recommends that the Board of Directors reappoint the current Members of the MAC whose terms expire December 31, 2008 to two-year terms commencing on January 1, 2009.

#### IV. FINANCIAL CONSIDERATIONS

Funds are available in the 2008/2009 METRO Operating Budget to support the activities of the Metro Advisory Committee.

Mark J. Dorfman, Assistant General Manager

SUBJECT: CONSIDERATION OF REVISION TO DRAFT SHORT RANGE

TRANSIT PLAN SERVICE OPTION

#### I. RECOMMENDED ACTION

It is recommended that the Board of Directors approve the revision to the Draft Short-Range Transit Plan to remove the Trunk and Feeder Service Option.

#### II. SUMMARY OF ISSUES

- METRO received a federal grant to develop a Short-Range Transit Plan.
- The firm of Wilbur Smith Associates was hired to perform the work.
- At a previous Board Meeting, a presentation was made detailing an alternative method of transit service delivery, a Trunk and Feeder Service Option, as part of that plan.
- At that time, staff was directed to prepare a public outreach campaign to solicit public input on the Trunk and Feeder Service Option.
- As part of the preparation for the public outreach process staff evaluated the Trunk and Feeder Service Option.
- Based on this evaluation, it does not appear feasible to proceed with the Trunk and Feeder Service Option within the 5-year planning horizon for the Short-Range Transit Plan.

#### III. DISCUSSION

In 2007, Santa Cruz METRO received federal funding to develop a Short-Range Transit Plan. While not a requirement for federal funding, this is a document that the Federal Transit Administration likes to see in the planning documents used by a transit system. It had been many years since Santa Cruz METRO had put together a complete plan, and our situation had changed enough to warrant a complete update. The firm of Wilbur Smith Associates was hired to develop the plan. The planning horizon for this SRTP is 5 years.

At the time Wilbur Smith Associates began the process, METRO was projecting to have an additional \$1 million per year in additional service to deploy. As this would be a major amount of new service, the Board was concerned with where to make these new investments in service expansion. During the time that the work on the plan was undertaken, the economic situation for METRO had changed dramatically. There are no new funds on the horizon for expansion. Further, METRO has had to take funds from reserves in order to balance the budget in the coming two years.

Early on in the process, Wilbur Smith Associates made a presentation to the Board on the concept of Trunk and Feeder Service as a replacement for the current method of service delivery. The Board at that time showed interest in the concept, but again this was against the backdrop of adding new service.

At a subsequent Board Meeting a presentation was made by the consultants on the draft report, and there were concerns raised regarding whether there had been enough public input to warrant such a major change in the service delivery model for METRO. The Board of Directors requested that staff return with a plan to solicit public input.

Staff proposed a public outreach program that was to allow METRO to work closely with the Santa Cruz County Regional Transportation Commission (RTC). In light of the funding challenges facing both the RTC and the METRO for both the short and longer term, it was thought to be appropriate for our two agencies to work collaboratively toward planning transit and transportation improvements throughout the county.

Staff then attempted to look at specific ways that a Trunk and Feeder Service Option would operate and to actually layout a revised routing structure in the corridor from Santa Cruz to Watsonville to determine its feasibility. Staff then developed a routing scenario that would restructure the service to a Trunk and Feeder Service Option and then compare this service scenario to what exists today.

In examining the operating characteristics of the new service, we found that the new service would require 89,475 hours of service, to replace the existing 76,408 hours now being provided. This is a change of 17%. This represents a potential cost of \$1 million.

In addition to the above information, staff identified several other important missing requirements that would be necessary to ensure the success of such a change to a new service concept. Each of these will be outlined below.

<u>Fare Structure</u> and <u>Farebox Infrastructure</u> — One of the impacts of moving to a Trunk and Feeder Service Option is that the number of transfers will increase as people may be

required to take 2 or 3 buses to complete a trip. Today, METRO charges a fare each time a passenger boards a bus, unless a Day Pass is purchased, or the rider has a Monthly Pass. Currently the Day Pass is priced at 3 times the base fare. In this instance if your trip is served by 1 bus in each direction, it is cheaper for a person to simply pay for individual rides. In the case of a trunk and feeder system, with more transfers, it would be necessary to price the Day Pass at 2 times the base fare, to avoid an indirect fare increase to the public. While moving to a Trunk and Feeder Service Option would probably increase ridership, the original proposal did not quantify the lost revenue from moving to a revised fare structure. Another technique related to fares and enhanced boarding at stops, METRO should consider the use of SMART CARD technology to allow fast and easy boarding on the vehicles. METRO staff has requested capital funding for this system with FTA. METRO currently does not have this technology.

AVL and Passenger Information System – Another important component to making a Trunk and Feeder operate efficiently from a passenger perspective is to ensure that all connections with the trunk are as seamless as can be. For this to occur, scheduling becomes critical. With existing traffic conditions in the Santa Cruz to Watsonville corridor, we know that there are delays to the service. An Automated Vehicle Location (AVL) system is necessary to put the dispatcher in the role of an air traffic controller to hold various buses to make these connections. Without such a system, it is inevitable that passengers would be frustrated whenever connections are missed. An AVL system for METRO would cost approximately \$5.0 million and would provide METRO with many benefits, well beyond what is discussed above. In addition, it is necessary to have automated signage at each of the feeder connections to the trunk route so that passengers would know when the next bus was going to arrive. Knowing that a bus is arriving in 3 minutes when you can't see it is very comforting and it takes away from rider concerns. A minimalist system to accomplish just the signage without a full AVL system, might be purchased for approximately \$200,000, based upon conversations with a vendor at the recent APTA Expo in San Diego. No funds were budgeted for this purpose.

<u>Contingency Funds for Operations</u> – in order for such a major change to occur, METRO should have an amount of contingency funds available to be able to deal with any problems that would arise after implementation. Should this concept prove to be successful, and ridership grows, causing various routes to be overcrowded, METRO would have to have reserve capacity available to supplement service. No funds were budgeted for this purpose.

<u>Vehicles and Station Infrastructure</u> – In areas where they have moved to this concept, at a minimum they "branded" the buses with a different paint scheme to create attention for the new service. This was done for example in San Jose for the Rapid bus line along

El Camino. In many cases, separate fleets of buses were ordered with amenities that are markedly different that the regular fleet to clearly differentiate that this is a different experience. In these instances the services provided have been very successful and have exceeded initial projections. Additionally, the transfer points along the routes would have to upgrade to a transit station, as opposed to just a bench or shelter, as these would be heavily used bus stops and would need to accommodate at least 2 buses at a time to allow for easy transfers. No funds were budgeted for this purpose.

<u>Traffic Congestion/HOV Lane</u> – METRO buses operate on the local streets and highways. As traffic congestion has continued to increase in the county, it takes METRO vehicles longer to complete their routes. This "delay factor" presents METRO with only two options. First we can add additional buses to make up for the delays. This would be an additional cost to METRO for which there is currently no funding. The reality is that these traffic congestion costs result in service cuts, since it takes the same bus longer to navigate its route, resulting in less trips. For the Trunk and Feeder Service Option to operate at a higher level of service, and not be slowed down by traffic, it is necessary that the High Occupancy Lane Project for Highway 1 be implemented. The impact of this improvement is that traffic on local streets would flow better with the added capacity on the highway.

**Economy** – At the time that the initial study was being performed, economic conditions were very different METRO staff was projecting that there would be an additional amount of \$1 million of new service that could be added to the system in each of the next three years. These increased revenues would have provided a needed cushion that would have potentially supported a revised system of service delivery. When changing to a different form of service delivery, the system has to have a financial reserve to be able to deal with any service issues that might arise – both successes and failures. Quick response can mean the difference between success and failure of a change. Unfortunately, the economy in the nation has taken a severe downturn and as a result, sales tax projections are actually below what was collected in the prior year. The likelihood of a quick recovery does not appear to be good at this time, and most economists are predicting a slow recovery. As a result of this, it is not anticipated METRO will be in a financial position to move to a Trunk and Feeder Service Option with the five year horizon of a Short Range Transit Plan.

### Staff is recommending

• Add to the SRTP this discussion and revise the discussion on the Trunk and Feeder Service Option to reflect that it not be pursued in the five-year planning horizon of this plan.

- Revise the SRTP to have no revision being made to the service delivery model currently in use by METRO
- Revisit the service delivery issue in future updates to the SRTP

# IV. FINANCIAL CONSIDERATIONS

The SRTP will be finalized and printed at no additional cost to METRO by Wilbur Smith Associates.

TO:

**Board of Directors** 

FROM:

Margaret Gallagher, District Counsel

SUBJECT:

CONSIDERATION OF THE TRANSFER OF THE LEASE AGREEMENT WITH WALID AND WINONA SUB LABAN, D/B/A METROPOLITAN MARKET FOR THE MARKET AND OFFICE SPACES AT PACIFIC

STATION, TO AHMED SABA AND MOHAMED ALSAIDI

#### **ACTION REQUESTED ON DECEMBER 12, 2008**

#### I. RECOMMENDED ACTION

Authorize the transfer of the Lease for the market and office spaces at Pacific Station from Walid and Winona Sub Laban, d/b/a Metropolitan Market, to Ahmed Saba and Mohamed Alsaidi.

#### II. SUMMARY OF ISSUES

- Walid and Winona Sub Laban, dba Metro Market, currently rent grocery and office space at Pacific Station. The current lease began on February 1, 2006 and will terminate on January 31, 2011.
- The Sub Labans have notified METRO that they have entered into negotiations for the sale of their business to two individuals, Ahmed Saba and Mohamed Alsaidi.
- Mr. Saba currently owns and operates Brothers Market in Freedom, while Mr. Alsaidi currently co-owns and operates Dale's Market in Freedom.

#### III. DISCUSSION

Walid and Winona Sub Laban, d/b/a Metro Market began leasing market and office space for their business at Pacific Station on March 18, 2002 after purchasing the business from Bob Tott, the owner at that time. METRO authorized the assignment of the lease from Bob Tott to the Sub Labans, of the unexpired lease term through January 31, 2006. On February 1, 2006 the Sub Labans entered into a new five-year lease with METRO for the same grocery and office spaces. The lease has a five (5) year term, with an option to extend the term on all the provisions contained in the lease, except for minimum monthly rent, for an additional five-year period. The rent was set at \$2,437.35 at the commencement of the lease on February 1, 2006. The rent has been subject to periodic cost of living adjustments each year. Currently, the rent is \$2,615.98, and has been since February 1, 2008. Metro Market is a business that sells food and miscellaneous sundries to customers. This type of business has been very successful at Pacific Station.

Ahmed Saba and Mohamed Alsaidi wish to buy the business and take over the lease for Market and Office Space.

Both individuals have been successfully running and operating grocery stores for a significant period of time. Mr. Saba currently owns and operates Brothers Market in Freedom, which he has been running since 1992. Mr. Alsaidi currently co-owns and operates Dale's Market in Freedom, since 2005.

The Finance Manager has reviewed the financial information for Mr. Saba and Mr. Alsaidi and has indicated they appear to be financially stable and she supports the lease transfer.

Article 12 of the lease requires the consent of METRO for any lease transfer, which cannot be unreasonably withheld.

#### IV. FINANCIAL CONSIDERATIONS

Rent for the Market space is currently \$2,359.10 per month with annual CPI adjustments. Rent for the Office space is currently \$256.88 per month with annual CPI adjustments.

#### V. ATTACHMENTS

Attachment A: Draft Lease Assignment

Attachment A

# ASSIGNMENT OF THE SANTA CRUZ METROPOLITAN TRANSIT DISTRICT -METRO CENTER LEASE AGREEMENT DATED FEBRUARY 1, 2006

THIS IS AN ASSIGNMENT of lease by and among Santa Cruz Metropolitan Transit District ("Landlord"), Walid and Winona Sub Laban, ("Tenants"), and Ahmed Saba and Mohamed Alsaidi, ("Assignees").

For good consideration, it is agreed by and among the parties that:

- 1. The Tenants hereby assign, transfer and deliver to the Assignees all of the Tenants' rights in and to a certain lease between the Tenants and the Landlord for certain premises which consist generally of approximately 440 Square feet of retail grocery space of the interior space in the building commonly called Pacific Station and 240 square feet of office space located on the second floor of Pacific Station, 920 Pacific Avenue, Santa Cruz, California under a lease dated February 1, 2006, (the "Lease"). Notwithstanding the aforegoing, Tenants agree that this Assignment shall not discharge the Tenants of its obligations to Landlord under the Lease in the event of the breach of same by the Assignees. A copy of the Lease is attached hereto as Exhibit A and made a part hereof by reference.
- 2. The Assignees agree to accept the said Lease, to pay all rents and punctually perform all of the Tenants' obligations under the said Lease accruing on and after the date of delivery of possession to the Assignees as contained herein. The Assignees further agree to indemnify and save harmless the Tenants from any breach of the Assignees' obligations hereunder.
- 3. The parties acknowledge that the Tenants shall deliver possession of the leased premises to the Assignees on or about December 12, 2008, and that time is of the essence. All rents and other charges accrued under the Lease prior to said date shall be fully paid by the Tenants, and thereafter by the Assignees.
- 4. Furthermore, Assignees shall reimburse Tenants for the amount of the Security Deposit upon signing this Agreement. If Assignees do not fulfill any of its obligations under the Lease, Landlord may apply the Security Deposit on account of such obligation or to reimburse Landlord for any sum that Landlord may expend due to Tenants' or Assignees' default. If Landlord applies any part of the Security Deposit, Assignees (and Tenants upon failure of Assignees), immediately after notice from Landlord, shall deposit with Landlord the amount so applied so that Landlord shall have the full Security Deposit available at all times during the term of the lease.

- 5. The Landlord hereby consents to the assignment of lease, provided that:
  - a) Consent to the assignment shall not discharge the Tenants of its obligations under the Lease in the event of the breach of same by the Assignees.
  - b) All monies due and owing to Landlord by Tenants and previous Assignees are paid in full at the time of Assignment.
  - c) In the event of breach by the Assignees, the Landlord shall provide the Tenants with written notice of same and the Tenants shall have full rights to commence all actions to recover possession of the leased premises (in the name of Landlord, if necessary) and retain all rights for the duration of the said Lease provided it shall immediately upon notification, pay all outstanding and unpaid rents and cure any other default.
  - d) There shall be no further assignment of lease without the prior written consent of Landlord.
- 6. Any notice, demand, request, consent, approval, or communication that either party desires or is required to give to the other party or any other person shall be in writing and either served personally by depositing the same in the United States Postal Service, registered or certified mail, return receipt requested with the postage prepaid, addressed to the other party at the address set forth below. Either party may change its address by notifying the other party of the change of address by compliance with this section. Notice shall be deemed communicated within forty-eight (48) hours from the time of mailing if mailed as provided in this paragraph.

#### Landlord:

Santa Cruz Metropolitan Transit District 370 Encinal Street, Suite 100 Santa Cruz, CA 95060 ATTN: Secretary/General Manager

# **EXHIBIT A**

# LEASE ON FILE AT METRO'S ADMINISTRATIVE OFFICES

# SANTA CRUZ METROPOLITAN TRANSIT DISTRICT

DATE:

**December 12, 2008** 

TO:

Board of Directors

FROM:

Tom Stickel, Maintenance Manager

SUBJECT:

CONSIDERATION OF DESIGNATION OF SANTA CRUZ

METROPOLITAN TRANSIT DISTRICT'S AGENTS FOR OBTAINING FEDERAL AND STATE FINANCIAL ASSISTANCE FOR SERVICES

RENDERED DURING QUALIFYING EVENTS

#### **ACTION REQUESTED AT DECEMBER 12, 2008 MEETING**

#### I. RECOMMENDED ACTION

Approve the Attached Resolution (Attachment A) to designate the General Manager, Operations Manager, and Maintenance Manager as the Santa Cruz Metropolitan Transit District's Agents for Obtaining Federal and/or State Financial Assistance for services rendered during qualifying events.

#### II. SUMMARY OF ISSUES

- Santa Cruz Metropolitan Transit District (METRO) has been asked to provide certain services during recent events.
- To secure reimbursement for such services, METRO must have on file with the State, OES Form 130. See attached Resolution.

#### III. DISCUSSION

In May, 2008, Santa Cruz County experienced the Summit Fire. The Office of Emergency Services (OES) requested services from the METRO for assistance in responding to the fire. In June, 2008, OES again requested assistance in responding to the Trabing fire. METRO did respond, and incur expenses, relating to both of these events.

Reimbursement for the expenses has been requested. In order for the State to complete the reimbursement process for the past, as well as future events, METRO needs to file a Resolution (OES Form 130), attached. This Resolution designates the titles of which agents are authorized to submit reimbursement claims for METRO. By using the universal resolution, it is not necessary to process a new Resolution, if the METRO employees listed as agents change. Metro simply notifies OES in writing the names of the employees currently working under the titles.

# IV. FINANCIAL CONSIDERATIONS

Completing the Resolution will fulfill the State requirements to have an OES Form 130 on file to process reimbursement claims.

#### V. ATTACHMENTS

**Attachment A:** Resolution designating the General Manager, Operations Manager, and Maintenance Manager as Authorized Agents to submit claims to OES.

on the	day of, 20	·
7,00		
(Signa	ture)	(Title)

OES ID #	

#### **OES Form 130 Instructions**

When completing the OES Form 130, Applicants should fill in the blanks on page 1. The blanks are to be filled in as follows:

#### **Resolution Section:**

<u>Governing Body</u>: This is the individual or group responsible for appointing and approving the Authorized Agents. Examples include: Board of Directors, City Council, Board of Supervisors, etc.

<u>Name of Applicant</u>: This is the official name of the agency, city, county, or state organization that has applied for the grant. Examples include: Sacramento Public Water Works; City of Sacramento; Sacramento County; or California Highway Patrol.

<u>Authorized Agent</u>: These are the individuals that are authorized by the Governing Body to engage with FEMA and OES regarding grants applied for by the Applicant. There are two ways of completing this section:

- 1. Titles Only: If the Governing Body so chooses, the titles of the Authorized Agents should be entered here, not their names. This allows the document to remain valid if an Authorized Agent leaves the position and is replaced by another individual. If Titles Only is the chosen method, this document should be accompanied by a cover letter naming the Authorized Agents by name and title. This cover letter can be completed by any authorized person within the agency (e.g.: City clerk, the Authorized Agent, Secretary to the Director, etc.) and does not require the Governing Body's signature.
- 2. Names and Titles: If the Governing Body so chooses, the names and titles of the Authorized Agents should be listed. This will require a new OES Form 130 if any of the Authorized Agents are replaced or leave the position listed on the document.

<u>Governing Body Representative</u>: These are the names and titles of the approving board members. Examples would include Chairman of the Board, Director, Superintendent, etc. These <u>typically</u> will not be the Authorized Agent.

<u>Check Boxes</u>: Select either Universal (this resolution applies to all open and future disasters) or Disaster Specific (this resolution applies only to the specified disasters. If Disaster specific, fill in the blank with the disaster numbers for which this resolution applies.

#### **Certification Section:**

Name and Title: This is the individual that was in attendance and recorded the resolution creation and approval. Examples will include City Clerk, Secretary to the Board of Directors, County Clerk, etc. This person should not be one of the Authorized Agents to eliminate any concerns with possible "Self Certification."
